

Copyright Discussion Issues

- Not very interesting
 - Hosting infringing content, DMCA §512, Notice & Takedown
 - Copyright as means to protect the platform provider's investment
- More interesting
 - What the cloud does with data, how it breaks the common notions of “File, Browser, Link, Server” on which much of current Internet copyright is built
 - *Compare Comedy Central v. Cablevision* (2d Cir. 2009)
- Really interesting
 - Cloud as platform: virtualizing copyright rules within the cloud
 - Open versus closed platforms, e.g. iPhone app store, Xbox live
