

LAW & TECHNOLOGY CERTIFICATE PROGRAM

Boalt Hall has developed the nation's leading program in law and technology for students interested in concentrating their studies in this area. To receive the certificate upon graduation, students need to fulfill both curricular and extracurricular requirements. The curricular requirements emphasize depth and breadth of coverage and afford students substantial flexibility in adapting their course of study toward a range of career paths at the growing intersection of law and technology. JD candidates in their second year may submit an interim application to the program so they may inform prospective employers of their participation in the program. The Certificate Program includes three parts:

A. COURSE COMPONENT:

1. **Completion of the core course *Introduction to Intellectual Property*.**
2. **Completion of at least two courses from the following list of core courses:**
 - o Copyright
 - o Information Privacy Law
 - o Cyberlaw
 - o Patent Law
 - o Trademark Law
 - o Trade Secrets
3. **Completion of at least three additional Law & Technology courses** (that do not duplicate the two courses used to fulfill requirement two). For a complete list of Law & Technology offerings please visit the [courses page](#).

B. WRITING COMPONENT:

A writing component, fulfilled by completing a paper on a Law and Technology topic that meets the standards for the JD Writing Requirement. Refer to Appendix B of the [Academic Rules](#) for the complete scope and standards of this requirement.

C. ACTIVITY COMPONENT:

An activity component, fulfilled by substantial participation in at least one approved activity for two semesters, or two approved activities for one semester. This requirement is designed to encourage students to develop collaborative working skills and to complement the substantive knowledge derived from course-related work. The list of approved activities will be reviewed periodically by the faculty administering the program. Participating in the following activities satisfies the activity component:

- BERC @ Boalt
- Boalt.org
- Berkeley Technology Law Journal
- Consumer Advocacy and Protection Society
- Healthcare and Biotech Law Society
- Patent Law Society
- Samuelson Law, Technology and Public Policy Clinic
- Sports and Entertainment Law Society
- UAEM (University Allied for Essential Medicines)

Students may request to have another law and technology-related activity approved, such as a moot court competition relating to intellectual property.
