Howard Shelanski ~ Professor of Law and Director
Molly Van Houweling ~ Assistant Professor of Law and Director

Robert Barr ~ Executive Director
David Grady ~ Assistant Director
Louise Lee ~ Assistant Director

LAW & TECHNOLOGY CERTIFICATE PROGRAM

Boalt Hall has developed the nation's leading program in law and technology for students interested in concentrating their studies in this area. To receive the certificate upon graduation, students need to fulfill both curricular and extracurricular requirements. The curricular requirements emphasize depth and breadth of coverage and afford students substantial flexibility in adapting their course of study toward a range of career paths at the growing intersection of law and technology. In their second year, students may submit an interim application to the program so they may inform prospective employers of their participation in the program. The Certificate Program includes three parts:

A. COURSE COMPONENT:

1. Completion of the core course *Introduction to Intellectual Property*.
2. Completion of at least **two** courses from the list on the following page.
3. Completion of at least **three** courses that do not duplicate the two courses used to fulfill the above requirement. (Please see the BCLT web site.)

B. WRITING COMPONENT:

A writing component, fulfilled by completing a paper of publishable quality through the Law and Technology Writing Seminar or the Entertainment Law and New Media Writing Seminar; undertaking a supervised writing project in a law and technology seminar class that results in a paper of publishable quality; completing a supervised independent study writing course that results in a paper of publishable quality; or preparing substantial written work as part of the Samuelson Law, Technology, and Public Policy Clinic.

C. ACTIVITY COMPONENT:

An activity component, fulfilled by substantial participation (after completing the first year) in at least one approved activity for two semesters, or two approved activities for one semester. This requirement is designed to encourage students to develop collaborative working skills and to complement the substantive knowledge derived from course-related work. The list of approved activities will be reviewed periodically by the faculty administering the program. Participating in the following activities satisfies the activity component: [BTLJ](#); [BERC @ Boalt](#); [Samuelson Clinic](#); [SELS](#); [Patent Law Society](#); [UAEM](#); [Healthcare and Biotech Law Society](#); and [boalt.org](#). Students may request to have another law and technology-related activity approved, such as a moot court competition relating to intellectual property.

LAW & TECHNOLOGY CERTIFICATE APPLICATION

Full Name: _____ e-mail: _____

Address: _____ phone: _____

1. Completion of Introduction to Intellectual Property Year: _____

2. Completion of at least two courses from the following list:

Semester/Year
