Denver, CO 80246-1530

Mr. Gary Beers:

As per our recent discussion and emails, Encana Oil and Gas (USA) Inc. (Encana) respectfully requests that the Water Quality Control Division (WQCD) transfer the existing MINDI general permit (certification COG600633) issued to Encana to a general permit COG840000 for produced water discharges.

Currently, there are no changes to Encana's application for permit renewal under the existing MINDI that was submitted to WQCD on August 14, 2006. At this time, Encana is not submitting any water analyses for produced water that may be discharged.

Please contact Chris Durrant of Encana at (720) 876-5762 or chris.durrant@encana.com if you have any questions or need additional information.

Best regards,

James Walcutt
