WHAT.CD

[Home](#) [Login](#)

You've stumbled upon a door where your mind is the key. There are none who will lend you guidance; these trials are yours to conquer alone. Entering here will take more than mere logic and strategy, but the criteria are just as hidden as what they reveal. Find yourself, and you will find the very thing hidden behind this page. Beyond here is something like a utopia - beyond here is What.CD.

This is a mirage.

WELCOME TO DIY BOOK SCANNER.

We are a community of people crazy enough to build our own book scanners. We also write Free software for book scanning. We are the missing link between your bookshelf and your e-reader. Join us! Get involved by trying a simple scanner, or push the limits of scanning technology.

CHAT WITH US IN THE **FORUM!** → THE BEST WAY TO START.
HELP US WITH THE **WIKI!** → THERE'S ALWAYS MORE TO DO.
WE *NEVER* UPDATE THE **NEWS!** → TOO BUSY MAKING IT.

We are launching a new project to put [Open Hardware](#) Book Scanners in every community in the world, starting with [hackerspaces](#). Please enter your email here for more information. You will receive an email when the design files become available, and you will be notified of any meaningful progress.
