You've stumbled upon a door where your mind is the key. There are none who will lend you guidance; these trials are yours to conquer alone. Entering here will take more than mere logic and strategy, but the criteria are just as hidden as what they reveal. Find yourself, and you will find the very thing hidden behind this page. Beyond here is something like a utopia - beyond here is What.CD.

This is a mirage.
We are a community of people crazy enough to build our own book scanners. We also write Free software for book scanning. We are the missing link between your bookshelf and your e-reader. Join us! Get involved by trying a simple scanner, or push the limits of scanning technology.
