

Heyns Room, Faculty Club ~ University of California, Berkeley

The purpose of our conference is to explore current developments in coordinated care in California's safety net. At this event, we will report on the results of a study on safety net accountable care organizations (ACOs) funded by Blue Shield of California Foundation. We will also discuss emerging models of how ACOs might work in the safety net, and how legislatures can fuel care innovations by clearing legal barriers and creating incentives. The conference will bring together providers, policymakers and other stakeholders for a productive, wide-ranging conversation.
