DISABILITY INCARCERATED A SYMPOSIUM & GATHERING

The **DISABILITY INCARCERATED** symposium responds to the recent book of that title, bringing together the editors and other scholars, students, activists, and community members to map the intersections of policing, imprisonment, and the disabled body. The event seeks to step into the conspicuous void within critiques of the “prison industrial complex” - namely the absence of discussion of disability oppression, despite the disproportionate representation of people with disabilities within prisons and gated institutions.

sunday march 8 **Sins Invalid**

5:30 PM

A DRUMMING CALL TO LEGBA FOLLOWED BY PARTICIPATORY ALTAR CONSTRUCTION

The altar will commemorate disabled people policed and killed by parents/caregivers for not performing “ablebodied-ness”; people with disabilities who have died from incarceration in nursing homes or jails/prisons; and those who are locked up and fighting for their freedom.

Location: Gathering will begin outdoors in Kroeber Plaza at UC Berkeley outside Kroeber Hall at 5:30 and will move into 120 Kroeber Hall.

Please refrain from wearing scented products so that people with chemical sensitivities can join us. If you need any other disability accommodations in order to attend, including communication services, please contact sschweik@berkeley.edu.

monday march 9

Disability Incarcerated: A Symposium
