List of Participants** 413

## Foreword

This conference, the ninth sponsored by the Law of the Sea Institute, was held January 6-9, 1975 in Miami, Florida. Principal planning for the program was done by William T. Burke; Francis T. Christy, Jr.; Thomas A. Clingan, Jr.; H. Gary Knight; and Edward Miles.

The planning and administration of a large conference like this one is complex. The Law of the Sea Institute wishes to express its appreciation to Tony Pajares and Arlene Jacobsohn of the University of Miami's Conference Center and to Clare Gamble for so ably handling all procedural matters. In addition, we wish to thank Warren S. Wooster, Dean of the Rosenstiel School of Marine and Atmospheric Science, for making his facilities available to us.

The conference would have been impossible were it not for the financial support provided by many sources among them the Ford Foundation, the U.S. Coast Guard, the Office of Naval Research, the National Sea Grant Program, the International Research and Exchanges Board, and, of course, the University of Rhode Island. The Institute is deeply appreciative of the support provided by these organizations.
