LAW & TECH PROGRAM
NEW STUDENT HANDBOOK
2015-2016 ACADEMIC YEAR

Berkeley Law
UNIVERSITY OF CALIFORNIA
BERKELEY CENTER FOR LAW & TECHNOLOGY
"Teaching, research, convening, and student activities—these are the core functions of BCLT. Through a uniquely rich catalogue of courses, we train tomorrow’s leaders in technology law. We support our faculty directors’ groundbreaking research and writing about IP, privacy, and other issues. With our ever-expanding community of practitioners and scholars, we convene every year a series of must-attend conferences. We support a host of student-led activities. With the encouragement of Dean Sujit Choudhry, we are expanding our international engagement. Berkeley is the place to come for a law and technology education."

—Jim Dempsey, BCLT Executive Director
Welcome from the BCLT Executive Director

Established in 1995, the Berkeley Center for Law & Technology (BCLT) is the focal point at Berkeley Law for teaching, research, convening, and student activities on issues at the intersection of law and technology.

Our faculty directors work hard each year to ensure that the law and technology curriculum is broad, deep, and current. At the same time, your professors produce groundbreaking scholarship that frames and advances the global debate on tech policy. After you get past your first semester, you might consider working for one of the faculty as a research assistant. Equally noteworthy are the alumni, practicing attorneys, policymakers, and scholars from other schools that we bring to Boalt to participate in our luncheon talks, conferences and other events. Take time from coursework to expose yourself to these broader perspectives.

BCLT conducts a series of career events during the year, plus a summer reception for those staying in the Bay Area. Also, we support a wide range of student groups, which allow you to network and pursue interests extending beyond the classroom.

I urge you to take advantage of these and the other BCLT resources during the next three years. To learn about all our events and opportunities, sign up for our weekly eNews by giving us your email address on the sign-up sheets at any of our events, or email Claire Trias at ctrias@law.berkeley.edu. Claire is our Assistant Director for Program Development & Student Engagement.

If you have any questions, please contact Claire or me or our Associate Director, Louise Lee. Our commitment is to provide you with a rich and diverse educational experience, to prepare you for life-long careers in technology law.

Jim Dempsey

Jim Dempsey is the Executive Director of the Berkeley Center for Law & Technology. A leading expert on privacy, Dempsey has experience as a judicial law clerk, a law firm attorney, a Capitol Hill staffer, a non-profit leader, and a Presidential appointee. Before joining BCLT, Jim spent 18 years with the Center for Democracy & Technology, serving as its executive director from 2003 to 2005 before moving to California to open CDT West. Dempsey led CDT’s Global Internet Policy Initiative, which worked with government officials, industry, and human rights organizations on Internet policy issues in developing and transitional countries, and he founded Digital Due Process, a diverse coalition working to update the Electronic Communications Privacy Act. In 2012, he was confirmed by the U.S. Senate and appointed by the President as a part-time member of the Privacy and Civil Liberties Oversight Board, an independent agency within the executive branch charged with advisory and oversight roles regarding the nation’s counterterrorism programs.
Curriculum

Berkeley Law offers a remarkably rich curriculum on technology issues: over 20 courses a year, ranging from the intellectual property survey class to advanced courses and seminars on patent prosecution, antitrust, privacy, cybercrime, biotech, telecoms, the law affecting the entertainment industry -- even a course on wine law.

Annually, the faculty directors reassess the curriculum to ensure that it covers emerging topics that our students will encounter in practice. For the Fall of 2015 alone, Berkeley added two new technology courses:

Patent Litigation II: In the last few years, the Patent Trial and Appeal Board (PTAB) has emerged as an important forum for resolution of patent disputes, with a caseload tripling from 564 cases in 2013 to 1494 cases in 2014. Increasingly, new lawyers embarking on a career in patent law are likely to encounter early on a PTAB proceeding. So in 2015, the BCLT faculty directors planned and launched a new course focusing on litigation before the PTAB.

Berkeley IP Lab: Berkeley Law is placing an increasing emphasis on experiential learning. In 2015, Prof. Rob Merges launched a course that offers students the opportunity to assist real startups as they assess the patent landscape for their innovations. The course, which has both practice and classroom components, pairs Berkeley Law students with startups in the UC Berkeley innovation ecosystem, supervised by practicing lawyers from leading firms in the Bay Area.
Courses & Seminars

Here are the law & technology courses and seminars Berkeley Law expects to offer for the 2015-2016 academic year. For the most up to date and accurate course listing, please refer to the Berkeley Law courses page:

[link text]

Fall 2015

- Berkeley IP Lab
- Berkeley IP Lab Seminar
- Computer Crime Law
- Copyright Law
- Fundamentals of Internet Law
- IP: Conceptual Foundations, Practical Consequences
- IP for Tech Entrepreneurs
- Introduction to IP
- IP Analytics, Strategy & Decision Making
- Law & Technology Writing Workshop
- Music Law Seminar
- Patent Litigation II: PTAB and ITC
- Patent Prosecution
- Wine Law

Spring 2016

- Art and Cultural Property Law
- Computer Law
- Economics of IP Law (TBD)
- Information Privacy Law (TBD)
- Introduction to IP
- IP in the Entertainment Industries
- Patent Law
- Patent Litigation I
- Protecting Products of Place
- Topics in Privacy Law
- Trade Secrets
- Trademark Law
- Transnational IP Law
- Video Game Law
Kenneth A. Bamberger

administrative law, technology and governance, information privacy and data governance, the first amendment

Ken Bamberger is an expert on government regulation and corporate compliance, especially with regard to issues of technology, free expression, and information privacy. Professor Bamberger's research more generally covers risk regulation, the use of technology in regulation and compliance, and the role of private actors in regulation. *Privacy on the Ground*, his groundbreaking study of corporate privacy practices in the U.S. and Europe (conducted with Professor Deirdre Mulligan), will be published by MIT Press in 2015.

Catherine Crump

first amendment, fourth amendment

Catherine Crump is Associate Director of the Samuelson Law, Technology and Public Policy Clinic and Assistant Clinical Professor of Law. Her work focuses on the application of First and Fourth Amendment principles to new technologies, and in particular government surveillance programs. Representative recent litigation includes challenges to the National Security Agency's mass collection of domestic telephony metadata and to the Department of Homeland Security's policy of engaging in purely suspicionless searches of cell phones and laptops at the international border. She is a TED fellow and a member of the Constitution Project's Committee on Policing Reforms.

Chris Jay Hoofnagle

privacy, computer crime, online advertising, web privacy measurement

Chris Hoofnagle teaches computer crime law and a seminar on the Federal Trade Commission's regulation of privacy. Hoofnagle has written extensively in the fields of information privacy, the law of unfair and deceptive practices, consumer law, and identity theft.
Peter S. Menell

*intellectual property, computer law, entertainment law, property law, environmental law*

Peter Menell is Koret Professor of Law. Reflecting his training in economics and law, Professor Menell’s research focuses principally on the role and design of intellectual property law with particular emphasis on the digital technology and content industries. His current projects explore the role of notice in developing tangible and intangible resources, copyright reform, and the adaptation of content and digital technology industries to the Internet age. He also filed amicus briefs in four important cases. During 2012-13, he served as one of the inaugural Thomas Alva Edison Visiting Professionals at the United States Patent & Trademark Office.

Robert P. Merges

*patents, intellectual property, economics, technology markets & valuation*

Robert Merges is Wilson Sonsini Goodrich & Rosati Professor of Law. He is the author of *Intellectual Property*, published by Harvard University Press in 2011. A comprehensive statement of mature views on the ethical and economic foundations of IP law, the book reviews foundational philosophical theories of property and contemporary theories about distributive justice and applies them to IP; identifies operational high-level principles of IP law; and, with all this as background, works through several pressing problems facing IP law today. Professor Merges also has undertaken extensive revisions to two of the casebooks he coauthors, to update them in light of the America Invents Act.

Deirdre K. Mulligan

*information technology law & policy, privacy, security, copyright*

Deirdre Mulligan’s current research agenda focuses on information privacy, security, cybersecurity and fairness. *Privacy on the Ground: Governance Choices and Corporate Practice in the US and Europe*, the culmination of Professors Mulligan and Bamberger’s five-year empirical comparative research project exploring regulatory structures and corporate governance of privacy in five countries, will be published in Fall 2015 by MIT Press. Other areas of research include digital rights management technology and privacy and security issues in sensor networks and visual surveillance systems, and alternative legal strategies to advance network security.
Pamela Samuelson

Copyright, patent, internet and digital media, cyberlaw

Pamela Samuelson is Richard M. Sherman Distinguished Professor of Law and Information. Her recent work has focused on updating and adapting U.S. copyright law to meet challenges of the digital age. She has proposed several ways in which the law should be reformed and has considered various modes and venues through which reform might be achieved. Other recent work has focused on mass digitization and intellectual property protection for computer programs, on which she has coauthored several amicus curiae briefs in recent cases. Professor Samuelson is a co-founder of the Authors Alliance.

Paul M. Schwartz

Privacy, data security, international data protection law, cyberlaw, intellectual property

Paul Schwartz is Jefferson E. Peyser Professor of Law. His scholarship focuses on how the law has sought to regulate and shape information technology. His most frequently researched topic concerns information privacy and data security. At present, Professor Schwartz is engaged in several different research projects, including research into comparative privacy developments in the U.S. and the European Union as well as the interplay between state and federal privacy law.

Talha Syed

Patent, copyright, computer crime, online advertising, web privacy measurement

Talha Syed's research focuses on institutional and normative analysis of patents, copyright, and alternative innovation policies; and normative legal theory with special reference to torts, health, and education policy. Among Professor Syed's recent and current projects are: comparative-institutional analysis of patent reforms, prizes, public funding and regulatory incentives for improving the social impact of innovation in health; democratic and distributive analysis of copyright; economic analysis of product differentiation models of copyright; and the development of a distributive justice approach to disability in the context of health law, torts, and education policy.
Jennifer M. Urban
copyright, intellectual property, privacy, licensing, emerging artists, patents

Jennifer M. Urban directs the Samuelson Law, Technology & Public Policy Clinic. Her work includes a series of empirical studies of consumer attitudes toward privacy with Chris Hoofnagle and the Takedown Project (takedown.org), a collaborative effort to research takedown of content by intermediaries. Her paper with Mark Lemley shows that judges with more experience handling patent cases are more likely to rule for defendants, and her work with Chris Hoofnagle empirically questions longstanding research used to support the dominant “notice and choice” regime in privacy regulations. In the Clinic, Professor Urban is working on copyright; privacy in the cloud and in the “Internet of Things”; and government and private surveillance.

Molly S. Van Houweling
copyright, digital media, intellectual property, technology law

Molly Van Houweling is Professor of Law and Associate Dean for J.D. Curriculum and Teaching. Her teaching portfolio includes intellectual property, basic property law, and food law and policy (touching on agricultural innovation and patent policy, among other topics). Much of Professor Van Houweling’s research focuses on copyright law’s implications for new information technologies (and vice versa). Professor Van Houweling often explores intellectual property issues using theoretical and doctrinal tools borrowed from the law of tangible property. She is working on a book, tentatively entitled Property’s Intellect, that focuses on these connections. Professor Van Houweling is an Associate Reporter on the American Law Institute’s Restatement of the Law, Copyright, and an Adviser to the Restatement of the Law Fourth, Property.
Kathryn Hashimoto is a Copyright Research Fellow. While working in book publishing, she attended the University of San Francisco School of Law and received her J.D. in 2010. She also interned at the Electronic Frontier Foundation.

Kevin Hickey is the BCLT Microsoft Research Fellow. His scholarship focuses on copyright law and theory. Recent works include Reframing Similarity Analysis in Copyright, 93 Washington University Law Review (forthcoming 2015), and Consent, User Reliance, and Fair Use, 16 Yale Journal of Law & Technology 397 (2014). Prior to joining BCLT, Kevin was the Furman Academic Fellow at New York University School of Law and spent several years practicing intellectual property litigation at Covington & Burling LLP.

Michael Wolfe is a Copyright Research Fellow who is developing research and commentary to promote public interest authorship in the digital age. He received his J.D. from Duke in 2013 and holds a B.A. in Social Studies from Harvard. Michael also serves as the Executive Director of Authors Alliance, a non-profit that provides public interest authors with resources on copyright and contract law.

Louise Lee
Associate Director
Year joined BCLT: 2005

Louise has extensive knowledge of the business of law practice with a special emphasis on recruitment and business development, having worked for 12 years at leading San Francisco law firms doing marketing, business development, CLE coordination, and attorney recruiting. In 2000, Louise joined the Career Development Office at Berkeley Law, as the on-campus interview program manager. In 2005 she joined the BCLT team. As Associate Director, Louise is responsible for event management, donor communications and sponsorship, short and long range planning, and managing the team of professionals that organize BCLT's ambitious agenda of events for law students, alumni, and the law and technology community.

Claire Trias
Assistant Director
Program Development & Student Engagement
Year joined BCLT: 2013

Prior to joining BCLT in 2013, Claire was a research assistant at Touro University California. At BCLT, she focuses on enhancing law students' academic experience through her coordination of the Law & Technology Certificate, and her organization of the extensive series of events and programs that BCLT sponsors. Claire holds a BA in English with a minor in Art from Holy Names University.
Student Groups

BCLT provides administrative and financial support to nine student groups. These groups concentrate on specific legal skills or areas of the law, allowing students to supplement their classroom education. BCLT also provides primary funding to the Moot Court program at Berkeley for its Intellectual Property Law, Technology Law, and Entertainment Law Competitions.

BERC @ Boalt
BERC @ Boalt is the law school branch of the Berkeley Energy & Resources Collaborative, a student-led organization which aims to connect and educate the UC Berkeley energy and resources community. BERC @ Boalt helps to inform law students about current legal practice and advances in the fields of energy, climate and clean technologies. It does this through the development of curriculum, the continuing expansion of an alumni and professional network, the promotion of events and discussions centered on green issues, and the creation of a Career Guide for Energy, Climate and CleanTech Law.

Berkeley Information Privacy Law Associations (BIPLA)
The Berkeley Information Privacy Law Association (BIPLA) serves as a forum for students, faculty and other members interested in the various facets of Information Privacy Law. The Association organizes meetings, events, talks, and seminars by experts working in the area of information privacy law. It aims to develop a strong network of people working towards the mission of overcoming challenges posed by the digital world.

boalt.org
boalt.org is Berkeley Law's public interest and technology group. It meets regularly to network, share resources and ideas, build community, and discuss trends in law and technology. It works with the Boalt community and with other campus initiatives to foster collaboration and improve legal innovation, design, and technology.

Consumer Advocacy and Protection Society (CAPS)
The Consumer Advocacy and Protection Society (CAPS) is dedicated to promoting consumer protection law at Berkeley. Its mission is to connect students interested in consumer protection issues, organize and host consumer-related events, network with the greater consumer law community, and promote the availability of courses and clinical opportunities related to consumer protection law. Its listserv delivers information about consumer protection jobs and major developments in consumer law.

Berkeley Technology Law Journal (BTLJ)
The Berkeley Technology Law Journal (BTLJ) is a student-run publication that covers emerging issues in the areas of intellectual property, privacy and cyberlaw. Since 1986, BTLJ has kept judges, policymakers, practitioners and the academic community abreast of the dynamic field of technology law. The Journal’s membership of approximately 150 students publishes three issues of scholarly work each year, plus the Annual Review of Law and Technology. The Annual Review is a distinctive issue of the Journal published in collaboration with BCLT and is dedicated to student-written case notes discussing the most important recent developments in this sector.

Each year, BTLJ co-hosts the Annual BCLT/BTLJ Symposium. For each conference, BTLJ publishes a symposium issue, featuring articles by leading academics on the issues raised at the conference. These symposia often pioneer new areas of research by introducing topics that are far-reaching and significant, but have yet to enter the public discourse.
Healthcare and Biotech Law Society (BHBLs)

Members of the Boalt Healthcare and Biotech Law Society (BHBLs) examine and analyze the intersection between law, society, policy and science. Their mission is to foster discussion on emerging health/biotech issues and to stimulate the intellectual and professional development of Boalt students interested in these issues. They do this by organizing networking events with practitioners, promoting health and biotech courses at Berkeley Law and increasing interaction between Berkeley Law and other healthcare and biotech related institutions at UC Berkeley and beyond.

Patent Law Society (PLS)

The Patent Law Society (PLS) provides a forum for students interested in practicing patent law to discuss and debate the latest developments in this specialty and to interact, network and exchange ideas with others interested in the field. The group invites patent law practitioners to the school to share their experiences with students.

Sports & Entertainment Law Society (SELS)

The mission of the Sports and Entertainment Law Society (SELS) is to educate the Berkeley Law community about legal opportunities and issues in the entertainment and sports industries. SELS creates opportunities for students to network with each other and with legal professionals in these industries. During the academic year, SELS sponsors guest lectures and social events.

Universities Allied for Essential Medicines (UAEM)

Universities Allied for Essential Medicines (UAEM) links members of universities in the U.S., the U.K. and Canada who are concerned about patient access to medicines in poor countries. Its mission is to promote access to medicines and medical innovations in low and middle-income countries by changing norms and practices around academic patenting and licensing; to ensure that university medical research meets the needs of people worldwide; and to empower students to respond to the access and innovation crisis.

Partnerships

BCLT has expanded its presence within and beyond the law school, developing relationships locally, nationally, and internationally. BCLT works closely with other programs at the Law School, including the Samuelson Law, Technology & Public Policy Clinic and the Berkeley Center for Law, Business, and the Economy. BCLT is also involved in cross-disciplinary programs with other schools and departments on the UC Berkeley campus.

Samuelson Law, Technology & Public Policy Clinic

Founded in 2001, the Samuelson Law, Technology and Public Policy Clinic (SLTPPC) provided the first opportunity in legal academia for students to represent public interest clients in key debates and litigation at the intersection of law and technology. Today, it is the leader in a growing movement of clinics that give law students hands-on training in advocacy in the areas of IP, technology, and civil liberties.

Berkeley Center for Law, Business and the Economy

The Berkeley Center for Law, Business and the Economy (BCLBE) is Berkeley Law’s hub for rigorous, relevant, empirically based research and education on the interrelationships of law, business, and the economy. BCLBE’s areas of focus include technology innovation and commercialization and financing in the tech sector. BCLT and BCLBE collaborate on events exploring the continuum of legal issues crucial to innovation and the digital economy.
### Events

**Save the Date: 2015 - 2016 Upcoming Events**

#### BCLT/BTLJ Law & Tech Speaker Series

Every Tuesday and Thursday when classes are in session, BCLT and BTLJ bring to the school a lunchtime talk featuring prominent practitioners who share with students their real-world experience and practical legal knowledge on a wide variety of law and technology-related topics. Lunch is provided free to attending students.

**BCLT/BTLJ Law & Tech Speaker Series**

Every Tuesday and Thursday when classes are in session, BCLT and BTLJ bring to the school a lunchtime talk featuring prominent practitioners who share with students their real-world experience and practical legal knowledge on a wide variety of law and technology-related topics. Lunch is provided free to attending students.
The Berkeley Center for Law & Technology offers a specialized certificate for J.D. students that recognizes successful completion of a course of study focused on technology law.

**DEADLINES**
The final deadline for submitting the application is **July 1 of the student's graduation year**.

However, if students wish to be noted in the graduation program as having received the certificate, they must submit the application by **April 1 of their graduation year**.

**SUBMISSION PROCESS**
Complete the online application form by visiting [bit.ly/JDappform](http://bit.ly/JDappform). **Note:** Paper applications are no longer accepted.

**PROGRAM REQUIREMENTS**
The Law and Technology Certificate requires satisfactory completion of six courses and a research paper, as well as participation in a law and technology student organization.

1. Completion of the core course Introduction to IP.

2. Completion of at least two courses from the following list of core courses:
   - Copyright
   - Information Privacy Law
   - Cyberlaw
   - Patent Law
   - Trademark Law
   - Trade Secrets

3. Completion of at least three additional courses in the Intellectual Property & Technology Law category.

Courses cross-listed in the Intellectual Property and Technology Law category are not pre-approved to count toward the course component. Students may seek permission to count a cross-listed course toward the certificate requirements by contacting BCLT at bclt@law.berkeley.edu.

4. A writing component, fulfilled by completing a paper on a law and technology topic that meets the standards for the JD writing requirement. Refer to Appendix B of the Academic Rules for the complete scope and standards of this requirement. Students should submit a paper written to fulfill a course requirement at Berkeley Law, including a LAW 299 individual research-and-writing project.

5. An activity component, fulfilled by substantial participation in at least one approved activity for two semesters, or two approved activities for one semester. This requirement is designed to encourage students to develop collaborative working skills and to complement the substantive knowledge derived from course-related work. The list of approved activities will be reviewed periodically by BCLT. Participating in the following activities satisfies the activity component:
   - BERC @ Boalt
   - Boalt.org
   - Berkeley Information Privacy Law Association
   - Berkeley Technology Law Journal
   - Berkeley Journal of Entertainment and Sports Law
   - Consumer Advocacy and Protection Society
   - Healthcare & Biotech Law Society
   - Patent Law Society
   - Sports and Entertainment Law Society
   - Tech-related Field Placement
   - UAEM (University Allied for Essential Medicines)

Students may request to have another law and technology-related activity approved, such as a moot court competition relating to intellectual property.

**VARIANCE PROCESS**
Students may request to substitute other curricular and extra-curricular activities for a shortfall in the formal requirements. Refer to Variance Process on the website [bit.ly/JDappform](http://bit.ly/JDappform).

---

**LL.M. Law & Technology Certificate Requirements**

The LL.M. Law & Technology Certificate requirements are similar to the J.D. Law & Technology Certificate requirements. The LL.M. program requires satisfactory completion of four courses and a research paper, as well as substantial participation in one or more law and technology organizations.

Visit [law.berkeley.edu/8897.htm](http://law.berkeley.edu/8897.htm) for more information.

---

**Energy and Clean Technology Certificate Requirements**

The Certificate of Specialization in Clean Technology Law encourages students to develop a broad background in fundamental areas of the law while receiving advanced training in environmental, energy, intellectual property and finance law.

Visit [law.berkeley.edu/4669.htm](http://law.berkeley.edu/4669.htm) for more information.
Careers

BCLT Networking Events

Students at Berkeley Law have a unique opportunity to participate in a diverse set of activities and to explore IP and technology law issues with experts in the field by attending these unique networking programs:

- **BCLT/BTLJ Law Firm Receptions**: Partners, associates and recruiters from leading law firms host on campus receptions to speak informally about life at their firms and their practice. Receptions are expected to be held in Fall 2015.
- **The Law & Technology Mentor Program**, which begins in the Fall, matches up law students with practitioners.
- **Fall and Spring Employment Fairs**: More than 30 leading IP and technology firms will attend BCLT’s Fall Career Fair at Boalt Hall at the beginning of November. Watch the BCLT calendar and e-news for scheduling.
- **Summer Mixer**: BCLT brings together Berkeley law students working for the summer in the Bay Area and lawyers from top law firms for a summer networking opportunity.

Law & Tech Opportunities

For up-to-date openings for internships, judicial externships and job openings, subscribe to the BCLT mailing list by emailing bclt@law.berkeley.edu. Also, visit the Law & Tech Opportunities page at law.berkeley.edu/centers/bclt/opportunities/

Career Development Office

The Career Development Office, located in 290 Simon Hall, has a variety of resources to assist students looking for jobs in Law & Technology related fields. For more information visit law.berkeley.edu/careers.htm

Stay Connected

There are a variety of informational brochures on top IP firms for students outside of the BCLT office, 421 Boalt Hall, North Addition. Event information and announcements are also posted in the BCLT glass display case in the hallway across from Warren Room, 295 Boalt Hall, and in the display case outside room 376 Boalt Hall.
