

A WATER RIGHTS DATABASE FOR CALIFORNIA'S FUTURE

California's economy, food security, and environment all depend on water. The current drought highlights challenges that our state will face in managing this resource in the future. One challenge is information technology. While the Water Code and case law establish general rules to allocate water in shortage, the State Water Resources Control Board does not have adequate information about nearly 30,000 individual rights to effectively administer these rules. We propose establishing a modern, online database that includes: (a) legal information on all surface water rights and (b) physical information on timing, quantity, and environmental effects of diversions under those rights, all organized and searchable in a manner that supports management decisions.

Current Databases

The State Water Resources Control Board has paper records for all post-1914 appropriative rights issued under the Water Code. Any search in these records must be done manually, since individual documents in the files are generally not cataloged. The Water Board does not have paper records for riparian and pre-1914 appropriative water rights, other than recent statements of use. These rights are the senior rights in most basins, having arisen under the common law and Civil Code which predated the 1913 Water Code.

In 2007, the Water Board established an online database for water rights, eWRIMS. The database includes basic legal information on post-1914 appropriative rights. It does not include scanned (downloadable) copies of most documents related to these rights. In turn, it does not describe critical terms for riparian and pre-1914 rights, or contain underlying legal documents such as land patents or notices of appropriation. Lastly, this database does not provide physical information in a form that permits analysis of water use patterns in a given basin across time. See Appendix 1.

In sum, the Water Board's paper records and eWRIMS cannot be used to answer fundamental questions necessary for accountability and effective management. These include: what are the relative priority dates for all rights in a given basin? How much water has been diverted under a given right, by year, since a given right arose? How much water is diverted in aggregate in a given basin?

An Unprecedented Opportunity for a Modern Water Rights Database

Pursuant to Information Order 2015-002-DWR and Executive Order B-29-15 (paragraph 10), the State Water Board will collect legal information about riparian and pre-1914 appropriative rights, including patents and notices of appropriation, for the first time ever. It may also require more frequent than annual reporting of use under all rights, also for the first time ever. These initiatives have the potential to improve our working knowledge of our water rights system. However, it is unclear whether, when, or how this information will be integrated into eWRIMS.

We propose that the Water Board replace or modify eWRIMS, establishing a modern database that includes the following key elements:

Legal Information. The database should include comprehensive information on the legal basis and character of all water rights.

For post-1914 appropriative rights, this should include: applications, resulting permits and licenses, orders or decisions amending the rights, and related environmental documents prepared under the California Environmental Quality Act or other authorities. For pre-1914 appropriative rights, this should include the notices that were the basis of the rights under the Civil Code and common law that pre-dated the Water Code. For riparian rights, it should include the patents and other land records necessary to show the basis and scope of the rights. For each right, the database should include all records of investigations, hearings, and orders; stakeholder comments; and reports or statements of use. All information should be searchable by right, date, location, document author, and other relevant parameters. All documents should be downloadable in electronic form.

Physical Information. The database should include comprehensive information on the timing and quantity of diversions under all water rights, across all reported years. It should include environmental monitoring data related to such rights. The physical (and legal) information should be organized in a Geographic Information System (GIS) to permit searches and analysis ranging from right-specific to a basin as a whole.

Other Elements. Over time, the database should be expanded to include information related to groundwater rights and uses, in the course of implementation of the 2014 Sustainable Groundwater Management Act. Further, it should be flexible enough to integrate other databases, such as hydrologic monitoring and forecasting, conveyance and reservoir operations, and environmental monitoring. In sum, the database should serve the needs of water rights holders, the Water Board and other regulators, and stakeholders engaged in planning and management of the water rights system.

Next Steps

We will convene a workshop of stakeholders and experts to envision the form and functionality of such a database. We will develop technical specifications and budget, in cooperation with information technology partners. We will seek to locate non-public funding to contribute to implementation. We will present the proposal to the Brown Administration, including the Water Board, seeking a commitment to implement. We recommend implementation by December 2016, while recognizing the difficult technical and institutional barriers.

California is the birthplace of modern information technology. More so than any other place on earth, we have the capacity to establish a modern online database that facilitates effective management of our water resources. Now is the time to make it happen.

Attachment 1
Content of eWRIMS

We reviewed eWRIMS for its coverage of legal information related to post-1914 appropriative, pre-1914 appropriative, and riparian water rights. We reviewed rights in the Mono and Owens Basins, for illustrative purposes. The tables summarize our findings.

Post-1914 Appropriative Water Rights

We reviewed coverage for an important water right: License 10191, held by the Los Angeles Department of Water and Power (DWP) for diversion from the Mono Basin. The license was amended as a result of the Mono Lake Cases, one of the most important cases requiring management of water resources to protect water supply and ecosystem alike. We attach eWRIMS' content for this license as Attachment 2.

Element	Contained in eWRIMS	Missing from eWRIMS
Application	Assigned number for the application which resulted in the license; numbers for related applications held by DWP	Scanned copy of application
Permit	Assigned number for the permit	Scanned copy of permit
License	Assigned number for the license; license; WR Orders 90-3 and 95-10, amending the license	Decision 1631, which allocated waters ending the Mono Lake Cases; Orders 98-05 and 98-07, which supplemented that decision; and related letter orders
Hearing Record	None	Hearing record which resulted in D-1631, including evidence, briefs, and hearing transcripts. The Records Room has more than 20 linear feet of files containing such paper records.
Environmental Documents	None	Environmental Impact Report for D-1631; subsequent CEQA documents prepared by DWP (1995-2001) for implementation of creek restoration plans; scientific reports on the water and related natural resources of the

		Mono Basin
Reports of Use	2008-2013 reports in scanned form	Any reports of use between 1940 (when permit was granted) and 2008
Stakeholder Comments	None	Any stakeholder comments on the application, permit, license, and the related hearing which resulted in Decision 1631. The Records Room has more than 10 linear feet of files containing such comments.

Riparian and Pre-1914 Appropriative Rights

We reviewed eWRIMS for legal information related to riparian and pre-1914 appropriative water rights in the Owens Basin. We attach eWRIMS' index to these rights as Attachment 3.

Element	Contained in eWRIMS	Missing from eWRIMS
Type of claimed right	The column, "type of water right," lumps riparian and pre-1914 rights together under "Statement of Diversion and Use." It is possible to limit a search to riparian or pre-1914, identify a right's "sub-type" by clicking on "Application ID" in the search results (leading to a summary table), or download a statement of use and review the owner's representation about sub-type. See Attachment 4, which is eWRIMS' content for S024402, which relates to a pre-1914 right held by DWP.	Easy access to this information as a database field
Documents which are legal basis of right	None	Patent and other land records for riparian right; notice of appropriation for a pre-1914 appropriative right
Priority Date	None. Under "date," eWRIMS appears to show the	Priority date

	<p>filing dates for various statements of use. Thus, “May 6, 2014” is the date which eWRIMS shows for S024402, filed by DWP on that date for a diversion from Olancha Creek.</p> <p>It is possible to extract the claimed priority date for a given right, by downloading a statement and reviewing the owner’s information about the priority date. For example, the actual document numbered S024402 claims a priority date of 1893 for the associated pre-1914 right. See Attachment 4.</p>	
Amount of use	<p>None. eWRIMS shows “0” as the “face amount” for riparian and pre-1914 rights.</p> <p>It is possible to extract the amount of use by downloading a statement of use and reviewing the owner’s representation about the amount in a given year. Thus, while eWRIMS shows “0” as the “face amount” for a right, the actual document which is S024402 (and is downloadable from eWRIMS) shows 678 acre-feet of use in 2013. See Attachment 4.</p>	Reported amounts of use, by right and year
Environmental Documents	None	Any environmental documents related to modifications of facilities used for a riparian or pre-1914 right
Statements of Use	As a general matter, statements filed after 2007 in electronic form	Statements filed in paper form before 2007 or related records
Stakeholder Comments	None	All stakeholder comments on the right or its use

ORDER

Applications	<u>8042</u>	Permits	<u>5555</u>	Licenses	<u>10191</u>
	<u>8043</u>		<u>5556</u>		<u>10192</u>

**ORDER WR 95-10 AMENDING
WATER RIGHT DECISION 1631**

WHEREAS:

1. Licenses 10191 and 10192 were issued to City of Los Angeles (Los Angeles) on January 25, 1974, pursuant to Applications 8042 and 8043 respectively.
2. Licenses 10191 and 10192 authorize diversion and use of water from Rush Creek, Lee Vining Creek, Walker Creek and Parker Creek for municipal use and power generation.
3. On September 28, 1994 the State Water Resources Control Board (SWRCB), entered Decision 1631 which amended the terms and conditions of Licenses 10191 and 10192.
4. On May 16, 1995, Los Angeles filed a petition requesting changes in the conditions governing water diversions under Licenses 10191 and 10192 as follows:
 - a. Extend to November 1, 1995, the date by which Los Angeles must submit a draft stream and stream channel restoration plan and a draft waterfowl habitat restoration plan;
 - b. Eliminate the required flushing flow of 300 cubic feet per second (cfs) for Rush Creek for 1995; and
 - c. Allow the export of up to 4,500 acre-feet from the Mono Lake Basin in 1995..
5. The SWRCB provided written notice of the petition to interested parties on May 26, 1995.

6. The SWRCB received written comments on the proposed changes from the National Audubon Society and Mono Lake Committee ("Audubon"), the Department of Fish and Game (DFG) and California Trout (Cal Trout).
7. Counsel for Audubon advised the SWRCB that Audubon "does not object" to the proposed changes, but that it believes other deadlines in Decision 1631 regarding the restoration plans should also be extended by three months. Audubon requests that any export of water from the Mono Basin during 1995 "be carried out in a manner which does the most good for (or least harm to) the Owens River fishery."
8. Counsel for DFG advised the SWRCB that DFG "does not oppose the petition" by Los Angeles. Counsel for DFG advised the SWRCB that DFG supports the changes requested by Los Angeles with the qualifications that other deadlines regarding the restoration plans be extended by three months; that at least 160 cfs be released at Mono Gate One Return Ditch during the high runoff period and flows be increased if inspection of the ditch indicates that it can sustain higher flows; and that water exports from the Mono Basin to the upper Owens River be subject to monitoring and be done in a way that will not harm the upper Owens River. A supplemental letter from DFG staff requested that Los Angeles be required to prepare a proposed schedule of Mono Basin exports for review and concurrence by DFG.
9. Cal Trout stated that it "does not oppose the petition" by Los Angeles. Cal Trout further stated that it would be appropriate to extend the date for submittal of the restoration plans provided that "as an incident to submittal of" the draft restoration plan, Los Angeles notify the SWRCB and interested parties of interim stream restoration work undertaken pursuant to a March 1995 agreement and that all subsequent dates for review and comment on the restoration plans shall also be extended by three months. Cal Trout agreed to elimination of the 300 cfs flushing flow requirement for Rush Creek in 1995. Cal Trout does not oppose the export of up to 4,500 acre-feet of water in 1995 provided that it is done in a way that does not harm the upper Owens River and provided that, prior to the export, Los Angeles submit a schedule to the SWRCB showing the rate and timing of water exports.
10. The SWRCB received no protests or requests for a hearing on Los Angeles' petition.
11. Extension of the date for submittal of the draft restoration plans will allow for continuation of a cooperative effort in the restoration planning process and may reduce future disagreement over proposed restoration measures. In order to allow adequate time for review and comment on the draft restoration plans by interested parties and the SWRCB, it is appropriate to extend the other dates in the restoration planning process as specified below.

12. Providing a 300 cfs flushing flow in Rush Creek may not be feasible for 1995 due to the condition of the Mono Gate One Return Ditch.
13. The unusually high precipitation and expected runoff in the Mono Basin make it reasonable to allow export of 4,500 acre-feet of water provided that the water elevation of Mono Lake is at or above 6377 feet at all times that water is exported and that the water is exported in a manner consistent with protection of the fishery in the upper Owens River.
14. The petitioned changes would not constitute the initiation of a new right nor operate to the injury of any other legal user of the water involved.
15. It is in the public interest to grant the changes requested in the petition.

NOW, THEREFORE, IT IS ORDERED THAT:

1. The date by which the Licensee must submit a draft stream and stream channel restoration plan and a draft waterfowl habitat restoration plan is hereby extended to November 1, 1995. The draft restoration plans shall include a status report on any interim restoration work undertaken to date and shall identify any interim restoration work expected to be undertaken prior to implementation of the long-term restoration measures proposed in the restoration plans. Interested parties shall have 60 days from November 1, 1995 to review and comment upon the draft restoration plans. Following any revisions to the draft plans made in response to comments, Licensee shall prepare and submit final proposed restoration plans to the SWRCB by February 28, 1996. Interested parties may submit comments on the proposed plans to the SWRCB by March 31, 1996.
2. Licensee shall not be required to provide a channel maintenance and flushing flow of 300 cfs in Rush Creek during 1995, provided that Licensee maintain a minimum flow of 160 cfs during the period that the 300 cfs flow would otherwise be required under the conditions established in Decision 1631.
3. Licensee may export up to 4,500 acre-feet of water from the Mono Basin in 1995 provided that the following conditions are met:
 - a. The water level of Mono Lake shall be at or above 6377 feet any time that diversion of water for export occurs.
 - b. Licensee shall schedule exports of water from the Mono Basin in a manner intended to benefit the fishery in the upper Owens River. Prior to undertaking any export of water from the Mono Basin in

5

Licenses 10191 and 10192 (Applications 8042 and 8043)

Page 4

1995, Licensee shall consult with and obtain the concurrence of the California Department of Fish and Game regarding the timing and rate of Mono Basin water exports.

- c. Prior to undertaking any export of water from the Mono Basin in 1995, Licensee shall provide written notification to the Chief of the Division of Water Rights of the proposed timing and rate of water exports.

ORDER AMENDING LICENSES

BY THE BOARD:

1.0 INTRODUCTION

The City of Los Angeles (City) having received Licenses 10191 and 10192 to divert water from Rush Creek, Lee Vining Creek, Parker Creek, and Walker Creek; California Trout, Inc., the National Audubon Society, and the Mono Lake Committee having filed suit to have Licenses 10191 and 10192 amended; the Court of Appeal for the Third Appellate District having ordered that the licenses be amended to include certain specified language; the State Water Resources Control Board (Board) finds as follows:

2.0 DESCRIPTION OF PROJECT

The City of Los Angeles filed Applications 8042 and 8043 on July 27, 1934 to appropriate water from Rush Creek, Lee Vining Creek, Walker Creek, Parker Creek,

7

and Mill Creek. The Board's predecessor issued Permits 5555 and 5556 on June 1, 1940, authorizing diversion of water from four of the five creeks: Rush, Lee Vining, Walker, and Parker Creeks. On January 25, 1974, the Board issued Licenses 10191 and 10192 confirming Los Angeles' rights for diversion of water from these four creeks for municipal purposes and hydroelectric power generation.

3.0

LITIGATION REGARDING INSTREAM FLOWS FOR PROTECTION OF FISH

In 1985, California Trout, Inc. (Cal Trout), the National Audubon Society, and the Mono Lake Committee filed petitions for a writ of mandate seeking a court order requiring amendment of Licenses 10191 and 10192 to include a condition requiring bypass of sufficient water to maintain fish in good condition below Los Angeles' points of diversion on the four affected streams. On January 26, 1989, the Court of Appeal for the Third Appellate District ruled that the City's licenses must be amended to require fishery bypass flows in accordance with Sections 5937 and 5946 of the California Fish and Game Code. (California Trout Inc. v. State Water Resources Control Board, 207 Cal.App.3d 585 (1989).)

delay" to add the following language as a condition to Licenses 10191 and 10192:

"In accordance with the requirements of Fish and Game Code section 5946, this license is conditioned upon full compliance with section 5937 of the Fish and Game Code. The licensee shall release sufficient water into the streams from its dams to reestablish and maintain the fisheries which existed in them prior to its diversion of water."

Amendment of the licenses as directed by the Court of Appeal is a ministerial action exempt from the California Environmental Quality Act. (Public Resources Code Section 21080(b)(1); California Code of Regulations, Title 14, Section 15268.)

In addition to directing that the licenses be amended, the Court of Appeal also directed the Superior Court to hear and resolve an application by the plaintiffs for interim injunctive relief to provide instream fishery protection flows pending completion of the Board's proceeding to determine long-term flow requirements.

4.0 CONCLUSION

The Court of Appeal has determined that Licenses 10191 and 10192 must be amended to comply with Fish and Game Code Sections 5937 and 5946. The court has ruled that amendment of such licenses is a ministerial duty and it

Following the Court of Appeal decision, the Sacramento County Superior Court entered a writ of mandate on July 24, 1989, directing the Board to amend Licenses 10191 and 10192. The Superior Court did not set a date by which the licenses must be amended nor did it make any provision for instream flow requirements on an interim basis pending completion of the Board's proceeding. The Board filed a return to the Superior Court writ which described the Board's comprehensive review of Los Angeles' Mono Basin water rights. The Board's proceeding is intended to result in amendment of Licenses 10191 and 10192 to implement Fish and Game Code Section 5946 and to provide appropriate protection for public trust values.

Cal Trout, the National Audubon Society, and the Mono Lake Committee petitioned for appellate review of the Superior Court decision. They claimed that the court erred by failing to require immediate amendment of Licenses 10191 and 10192 and by failing to provide for interim flows pending completion of the Board's comprehensive review of Los Angeles' water rights. On February 23, 1990, the Court of Appeal entered an order directing that the Superior Court¹ command the Board to exercise its "ministerial duty without further

¹ The Court of Appeal directed its order at the El Dorado County Superior Court which now is assigned to hear the fishery flow litigation described in this order as well as other cases involving Los Angeles' diversion of water from the Mono Lake Basin. (Mono Lake Water Right Cases, El Dorado County Superior Court, Coordinated Proceeding Nos. 2284 and 2288.)

has specified the language to be added as a condition of each license. The licenses should be amended in accordance with the court's direction.

ORDER

IT IS HEREBY ORDERED that water right Licenses 10191 and 10192 shall be amended to include the following additional condition:

"In accordance with the requirements of Fish and Game Code section 5946, this license is conditioned upon full compliance with section 5937 of the Fish and Game Code. The licensee shall release sufficient water into the streams from its dams to reestablish and maintain the fisheries which existed in them prior to its diversion of water."

CERTIFICATION

The undersigned, Administrative Assistant to the Board, does hereby certify that the foregoing is a full, true, and correct copy of an order duly and regularly adopted at a meeting of the State Water Resources Control Board held on April 4, 1990.

PERMIT 5555

LICENSE 10191

THIS IS TO CERTIFY, That

HAS made proof as of MAY 2, 1973 (the date of inspection) to the satisfaction of the State Water Resources Control Board of a right to the use of the water of (1) LEEVING CREEK (2) WALKER CREEK (3) PARKER CREEK AND (4) RUSH CREEK IN MONO COUNTY tributary to (1)(4) MONO LAKE AND (2)(3) RUSH CREEK THENCE MONO LAKE

for the purpose of MUNICIPAL USE under Permit 5555 of the Board and that the right to the use of this water has been perfected in accordance with the laws of California, the Regulations of the Board and the permit terms; that the priority of this right dates from JULY 27, 1934 and that the amount of water to which this right is entitled and hereby confirmed is limited to the amount actually beneficially used for the stated purposes and shall not exceed (A) ONE HUNDRED EIGHTY-NINE (189) CUBIC FEET PER SECOND BY DIRECT DIVERSION, TO BE DIVERTED FROM JANUARY 1 TO DECEMBER 31 OF EACH YEAR, AND (B) EIGHTY-NINE THOUSAND TWO HUNDRED (89,200) ACRE-FEET PER ANNUM BY STORAGE, TO BE COLLECTED IN GRANT LAKE, LONG VALLEY, TINEMAH AND HAIWEE RESERVOIRS FROM JANUARY 1 TO DECEMBER 31 OF EACH YEAR AS FOLLOWS:

- (1) LEEVING CREEK - 83 CUBIC FEET PER SECOND AND 32,000 ACRE-FEET PER ANNUM
- (2) WALKER CREEK - 6 CUBIC FEET PER SECOND AND 4,700 ACRE-FEET PER ANNUM
- (3) PARKER CREEK - 11.9 CUBIC FEET PER SECOND AND 5,800 ACRE-FEET PER ANNUM
- (4) RUSH CREEK - 88.1 CUBIC FEET PER SECOND AND 46,700 ACRE-FEET PER ANNUM

THE MAXIMUM WITHDRAWAL FROM STORAGE IN ANY ONE YEAR SHALL NOT EXCEED A TOTAL OF 69,100 ACRE-FEET.

THE TOTAL AMOUNT OF WATER TO BE TAKEN FROM THE SOURCES SHALL NOT EXCEED 167,800 ACRE-FEET PER CALENDAR YEAR OF JANUARY 1 TO DECEMBER 31. THE TOTAL AMOUNT TO BE PLACED TO BENEFICIAL USE SHALL NOT EXCEED 147,700 ACRE-FEET PER CALENDAR YEAR OF JANUARY 1 TO DECEMBER 31.

THE MAXIMUM RATE OF DIVERSION TO OFFSTREAM STORAGE SHALL NOT EXCEED 365 CUBIC FEET PER SECOND.

THE POINTS OF DIVERSION OF SUCH WATER ARE LOCATED:

- (1) SOUTH 75° WEST 3,400 FEET FROM NE CORNER OF SECTION 20, T1N, R26E, MDB&M, BEING WITHIN NE $1/4$ OF NW $1/4$ OF SAID SECTION 20,
- (2) SOUTH $86^{\circ}13'27''$ EAST 268.78 FEET FROM NW CORNER OF SECTION 4, T1S, R26E, MDB&M, BEING WITHIN NW $1/4$ OF NW $1/4$ OF SAID SECTION 4,
- (3) SOUTH $34^{\circ}43'02''$ EAST 2,055.91 FEET FROM NW CORNER OF SECTION 9, T1S, R26E, MDB&M, BEING WITHIN SW $1/4$ OF NW $1/4$ OF SAID SECTION 9, AND
- (4) SOUTH $7^{\circ}24'00''$ EAST 1,256.8 FEET FROM NW CORNER OF SECTION 15, T1S, R26E, MDB&M, BEING WITHIN NW $1/4$ OF NW $1/4$ OF SAID SECTION 15.

THE POINTS OF REDIVERSION OF SUCH WATER ARE LOCATED:

GRANT LAKE - SOUTH $9^{\circ}47'26''$ EAST 1,898.09 FEET FROM NW CORNER OF SECTION 15, T1S, R26E, MDB&M, BEING WITHIN SW $\frac{1}{4}$ OF NW $\frac{1}{4}$ OF SAID SECTION 15,
LONG VALLEY RESERVOIR - NORTH $48^{\circ}13'14''$ WEST 4,199.2 FEET FROM OLD POST IN MOUNT OF ROCK
AT SE CORNER OF SECTION 19, T4S, R30E, MDB&M, BEING WITHIN SE $\frac{1}{4}$ OF NW $\frac{1}{4}$ OF SAID SECTION 19,
TINEMAH RESERVOIR - SOUTH $34^{\circ}52'00''$ WEST 703.81 FEET FROM N $\frac{1}{4}$ CORNER OF SECTION 26,
T10S, R34E, MDB&M, BEING WITHIN NE $\frac{1}{4}$ OF NW $\frac{1}{4}$ OF SAID SECTION 26,
LOS ANGELES AQUEDUCT INTAKE - SOUTH $40^{\circ}43'40''$ WEST 5,040.54 FEET FROM NE CORNER OF
SECTION 24, T11S, R34E, MDB&M, BEING WITHIN NE $\frac{1}{4}$ OF SW $\frac{1}{4}$ OF SAID SECTION 24, AND
HAIWEE RESERVOIR - NORTH $44^{\circ}59'00''$ EAST 3,946.56 FEET FROM SW CORNER OF PROJECTED
SECTION 2, T21S, R37E, MDB&M, BEING WITHIN SW $\frac{1}{4}$ OF NE $\frac{1}{4}$ OF SAID SECTION 2.

A DESCRIPTION OF LANDS OR THE PLACE WHERE
SUCH WATER IS PUT TO BENEFICIAL USE IS AS FOLLOWS:

WITHIN THE SERVICE AREA OF THE DEPARTMENT OF WATER AND POWER, CITY OF LOS ANGELES,
AS SHOWN ON MAP FILED WITH STATE WATER RESOURCES CONTROL BOARD.

Licensee shall allow representatives of the Board and other parties, as may be authorized from time to time by the Board, reasonable access to project works to determine compliance with the terms of this license.

All rights and privileges under this license, including method of diversion, method of use and quantity of water diverted are subject to the continuing authority of the Board in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water.

BY CALIFORNIA STATE WATER RESOURCES CONTROL BOARD

Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from time to time by the Board.

The right hereby confirmed to the diversion and use of water is restricted to the point or points of diversion herein specified and to the lands or place of use herein described. This license is granted and licensee accepts all rights herein confirmed subject to the following provisions of the Water Code:

Section 1625. Each license shall be in such form and contain such terms as may be prescribed by the Board.

Section 1626. All licenses shall be under the terms and conditions of this division (of the Water Code).

Section 1627. A license shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code) but no longer.

Section 1628. Every license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a license is issued takes the license subject to the conditions therein expressed.

Section 1629. Every licensee, if he accepts a license so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any license granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any licensee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Section 1630. At any time after the expiration of twenty years after the granting of a license, the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State shall have the right to purchase the works and property occupied and used under the license and the works built or constructed for the enjoyment of the rights granted under the license.

Section 1631. In the event that the State, or any city, city and county, municipal water district, irrigation district, lighting district, or political subdivision of the State so desiring to purchase and the owner of the works and property cannot agree upon the purchase price, the price shall be determined in such manner as is now or may hereafter be provided by law for determining the value of property taken in eminent domain proceedings.

Submit Form Electronically

THE STATE WATER RESOURCES CONTROL BOARD MAY RELY ON THE NAMES AND ADDRESSES ON THIS DOCUMENT FOR MAILING NOTICES REGARDING PROCEEDINGS BEFORE THE BOARD. (Wat. Code, § 5106, subd. (b)(1).)

SUPPLEMENTAL STATEMENTS OF WATER DIVERSION AND USE MUST BE FILED AT THREE-YEAR INTERVALS OR IF THERE IS A CHANGE IN THE NAME OR ADDRESS OF THE DIVERTER. (Wat. Code, § 5104.)

THE MAKING OF A WILLFUL MISSTATEMENT ON A STATEMENT OF WATER DIVERSION AND USE IS A MISDEMEANOR PUNISHABLE BY A FINE NOT EXCEEDING \$1,000 OR BY IMPRISONMENT IN THE COUNTY JAIL FOR UP TO SIX MONTHS, OR BOTH. THE BOARD MAY IMPOSE CIVIL LIABILITY UPON A PERSON WHO KNOWINGLY MAKES A MATERIAL MISSTATEMENT ON THIS FORM. (Wat. Code, § 5107.)

UPON COMPLETION OF THIS STATEMENT, ATTACH ALL SUPPORTING DOCUMENTATION AND MAPS AND MAIL TO:

State Water Resources Control Board
Division of Water Rights
PO Box 2000
Sacramento, CA 95812-2000

Additional copies of this form, instructions on how to complete this form and water right information can be obtained at http://www.waterboards.ca.gov/waterrights/water_issues/programs/diversion_use/. Revised January 2014.

INITIAL STATEMENT OF WATER DIVERSION AND USE

A STATEMENT SHALL NOT ESTABLISH OR CONSTITUTE EVIDENCE OF A WATER RIGHT
READ THE ATTACHED INFORMATION AND INSTRUCTION SHEET BEFORE COMPLETING THIS FORM
FURTHER INFORMATION CAN BE FOUND IN WATER CODE, SECTIONS 5100-5107

PAGE 2 OF 3: INITIAL STATEMENT OF WATER DIVERSION AND USE

DIVERTER NAME City of Los Angeles, Department of Water & Power

SOURCE/TRIBUTARY Olancha Creek

DIVERSION WORKS NAME Olancha Creek at Los Angeles Aqueduct

1. Type of Claim

Check the box(s) which describe the type of claim(s) under which you are diverting water.

Riparian Pre-1914 Court Decree Pending Appropriative Application Pueblo Other: _____

If you checked yes for Court Decree, Pending Appropriative Application or other, list the decree number, application ID or explanation:
Decree No. 2227; W. V. Butler (Plaintiff) vs. John H. Lubken, executor of Estate of Augustus Walker (Defendant)

2. Water Course Description

Water Course Name at the point of diversion

Olancha Creek

Water Course is tributary to

Owens Lake

3. Legal Land Description

Provide the location of the Point of Diversion using one of the following methods (check one box and enter coordinates, if applicable)

Latitude/Longitude Measurements: _____
 California Coordinate System (NAD 1983): X:408,373.43827 & Y:4,015,107.289
 USGS Topographic Map with point of diversion labeled on map (if checked yes, please attach map)

Assessor's Parcel Number(s), if assigned:

County

Provide Public Land Description to nearest 40 acres (if assigned)

SE $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 13, Township 19S, Range 36E, B&M Mount Diablo

4. Place of Use Description

Provide a general description of the area in which the water was used

Within Los Angeles County, for municipal use within the City of Los Angeles water service area; Within Inyo County, for irrigation in parts of Sections 7 & 18 (T19S R37E MD B&M).

Identify the location of the place of use on a specific United States Geological Survey (USGS) topographic map and on any other maps with identifiable landmarks. If assigned, provide the public land description to the nearest 40-acre subdivision and the assessor's parcel number. (check box indicating each map attached)

USGS Topographic Map County Assessor's parcel map

5. Purpose of Use Description (Please select all that apply below)

Irrigation
Number of Acres : 123

Domestic
Persons Served :

Stock watering
Number of stock and type:

Other
Please Explain:

Municipal Use; ~4.2 million persons served

6. Diversion Works Description

Name of Diversion Works, if named 1893 Year in which diversion commenced (or specify nearest known year)

List any related existing water rights, if applicable (for example, an appropriative right using the same diversion works)
Court Decree No. 2227: Right of Plaintiff (Butler) to appropriate, divert & use (1/30) of the waters of Olancha Creek. Appropriative right to divert & use (15/30) of the waters of Olancha Creek.

Type of Diversion Facility (select one)

Gravity Water Course Pump Well Pump Other (please specify) _____

Do you directly divert water? Capacity of Direct Diversion Works (specify unit and amount) 10 Do you divert water to storage?
 Yes No Cubic feet per second Gallons per minute Gallons per day On-stream storage (Complete Section B)
 Off-stream storage (Complete Sections A & B)

A. Capacity of Storage Diversion Works (specify unit and amount) _____ B. Capacity of Storage Tank or Reservoir (specify unit and amount) _____

Cubic feet per second Gallons per minute Gallons per day Gallons Acre-feet _____

7. Quantity of Water Diverted Note: Measurements must be made using best available technologies and best professional practices as listed in Section 8a unless documentation is provided to the State Water Resources Control Board that the implementation of those practices is not locally cost effective.

Provide the quantity of water diverted each month in the table below as measured in (check one box) Gallons Acre-feet

Year	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Total
2013	0	0	0	111.1	114.8	111.1	114.8	114.8	111.1	0	0	0	677.6

8. Measurement Device Description

Method used to measure water diverted (select one)

- Water directly diverted and/or diverted to storage was measured with a measuring device.
(if checked, proceed to section 8a and skip section 8b)
- Direct measurement using a device listed in Section 8a is not locally cost effective for water directly diverted and/or diverted to storage.
(If checked, skip section 8a and proceed to section 8b).

8a. Measuring Device

Indicate the types of measuring devices used (check all that apply):

- | | | | |
|---|---|---|-------------------------------|
| <input type="checkbox"/> Propeller Meter | <input type="checkbox"/> Sluice/Slide Gate | <input type="checkbox"/> Acoustic Meter | <input type="checkbox"/> Weir |
| <input type="checkbox"/> Staff gage and storage capacity curve | <input type="checkbox"/> Staff gage and floodable acreage | | |
| <input type="checkbox"/> Pressure transducer and storage capacity curve | <input type="checkbox"/> Other: _____ | | |

Indicate any additional technology used (check all that apply and explain below):

- | | | | |
|---|--------------------------------------|------------------------------------|---------------------------------------|
| <input type="checkbox"/> Flow totalizer | <input type="checkbox"/> Data Logger | <input type="checkbox"/> Telemetry | <input type="checkbox"/> Other: _____ |
|---|--------------------------------------|------------------------------------|---------------------------------------|

Indicate who installed your measuring device(s) (check all that apply):

- | | |
|--|--|
| <input type="checkbox"/> Representative using manufacturer's recommendations | <input type="checkbox"/> Licensed Civil or Agricultural Engineer |
| <input type="checkbox"/> Representative who is American Water Works Association (AWWA)-certified | <input type="checkbox"/> Hydrographer |
| <input type="checkbox"/> Representative using United States Geological Survey (USGS) techniques | <input type="checkbox"/> Other/Unknown: _____ |

List the make, model number, and last calibration date of your measuring device(s), if available:

8b. Explanation of why use of a measuring device is "not locally cost effective"

Indicate why you concluded that direct measurement using a device listed in Section 8a is not locally cost effective (check all that apply)

- | | | |
|---|--|--|
| <input type="checkbox"/> Diversion is small or minimal in size | <input type="checkbox"/> Diversions are infrequent | <input type="checkbox"/> Ungauged Siphon |
| <input checked="" type="checkbox"/> No power at diversion point | <input type="checkbox"/> Other: Intermittent Creek. Plans to improve the POD include installation of measurement device using best available technologies. | |

Indicate method(s) used as an alternative to direct measurement in order to complete this report (check all that apply)

- | | |
|--|--|
| <input type="checkbox"/> Electricity records dedicated to the pump | <input type="checkbox"/> Total facility electricity records minus estimated non-pump electricity |
| <input type="checkbox"/> Engine fuel use or hour meter records | <input checked="" type="checkbox"/> Crop duty estimates/consumptive use estimates |
| <input type="checkbox"/> Power generation estimates | <input type="checkbox"/> Other water duty estimates other than for crops |
| <input checked="" type="checkbox"/> Modeled/estimated flows | <input type="checkbox"/> Remote satellite imaging |
| <input type="checkbox"/> Pipe/trajectory method | <input type="checkbox"/> Bucket and stopwatch |
| <input type="checkbox"/> Float and stopwatch | <input type="checkbox"/> Other: _____ |

Explain your measurement alternatives:

Estimated based primarily on historical stream flow, but acreage of irrigated lands also considered.

9. Maximum Rate of Diversion (if available)Provide the maximum rate of diversion achieved in each month as measured in (check one box) cfs gpm gpd

Year	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
2013	0	0	0	1.9	1.9	1.9	1.9	1.9	1.9	0	0	0

10. Recent Water Use

Provide the annual water use in recent years:	Maximum 677.6	<input type="checkbox"/> Gallons	<input checked="" type="checkbox"/> Acre Feet
	Minimum 0	<input type="checkbox"/> Gallons	<input checked="" type="checkbox"/> Acre Feet

11. Water Conservation Efforts (answer only sections applicable to your diversion)Water Conservation: Are you currently employing any methods of water conservation? Yes No

If yes, describe any water conservation efforts in use:

Water Quality and Wastewater Reclamation: Are you now or have you been using reclaimed water from a wastewater treatment facility, desalination facility or water polluted by waste to a degree that unreasonably affects such water for other beneficial uses? Yes NoConjunctive use of surface water and groundwater: Are you using groundwater in lieu of surface water? Yes No
