

CSLS & JSP INVITE YOU TO A CELEBRATION  
IN HONOR OF THE PUBLICATION OF HARRY SCHEIBER'S  
***Constitutional Governance and Judicial Power:***  
***The History of the California Supreme Court***

***Constitutional Governance and Judicial Power*** is a comprehensive history and analysis of the California Supreme Court both as an institution and as an active factor in the state's cultural, socio-economic and political history. It is arguably the most complete and most authoritative study to date of any of the nation's state high courts. Kevin Starr of USC, a leading scholar of California history, terms the book "masterful, . . . skillfully integrating jurisprudential scholarship with social, economic, cultural and political issues." Prof. Gerald F. Uelman, biographer of Justice Stanley Mosk and an eminent student of the California judicial system, terms the book "a history with a heartbeat," stating further: "The tensions and passions that have pervaded the work of . . . the Court for 165 years are related in symphonic fashion by a cadre of astute and insightful scholars." Law's responses to technological change, to poverty, to changing marriage norms, and perhaps most strikingly, to the varied challenges of race relations, are all central issues treated in the context of intense political controversies.

JSP doctoral graduate Lucy Salyer, professor at the University of New Hampshire, and JSP vice chair emeritus Chuck McClain, contributors of chapters in the book, will join with Professor Scheiber in a discussion of the historical and legal problems they address in this work.
