

Palo Alto

Originally opening a Palo Alto office in 2008 to be closer to existing clients in Silicon Valley, the office has grown from 4 to almost 30 lawyers. We pride ourselves on the team approach we bring to every engagement, and we believe our collaborative approach improves the results we earn for our clients.

Baker Botts

In Palo Alto, we offer a full-service IP Practice, including litigation, patent prosecution, licensing, counseling, and due diligence.

We represent clients in unique, complex, and high-profile litigation before various entities, including:

- various district courts across the country
- Patent Trial and Appeals Board (PTAB)
- International Trade Commission (ITC)
- U.S. Court of Appeals for the Federal Circuit

We help clients develop robust patent portfolios and significant licensing deals. Whether they are a small start-up or a large multinational company, our clients represent the telecommunications, software, computer and electronics, semiconductor, and clean energy industries.

We also maintain a broad-based corporate practice, with securities offerings, mergers and acquisitions, private equity, emerging companies, and venture capital investments experience.

Baker Botts opened its second California office in January 2016 in San Francisco. The California offices are highly integrated and maintain the high level of professional excellence and client service that has been a hallmark of Baker Botts for 180 years.

Lawyers by Practice

- 12 Intellectual Property
- 7 Litigation
- 5 Corporate
- 2 Tax

Summer 2020

4 Summer Associates representing some of the top law schools across the nation.

Rankings

"I chose to, and choose to, work at Baker Botts because of my excellent colleagues. I have the opportunity to work every day with brilliant people who teach me, inspire me, and make me laugh."

—Betsy Boggs, Palo Alto Litigation Senior Associate

Palo Alto

Known as "Birthplace of Silicon Valley."

Averages 261 sunny days per year.

Has a number of significant natural habitats, including estuarine, riparian, and oak forest.

Recognized worldwide as a leader in cutting-edge technological development.

Developed a 31-mile dark fiber ring for ultra-fast Internet access throughout the city.

Home to Nobel Prize winners, technology companies, venture capital firms, research facilities, and one of the world's most renowned universities and medical centers.
