Chapter 3. Communications Monitoring

300. MONITORING INMATE AUTOMATED ACTIVITIES

Responsibility for monitoring inmates' automated activities (financial, telephone, correspondence) rests with the Intelligence Section. In the institution, the SIS office assumes operational responsibility.

Legal questions concerning monitoring of inmate financial, telephone, and correspondence activities should be directed to the Regional Counsel or designee.

301. COMMUNICATION METHODS

Inmates use telephone calls, written correspondence, video visiting, and electronic messaging to maintain contact with individuals in the community. (b)(7)(E), (b)(7)(F)

(b)(7)(E), (b)(7)(F)

303. SPECIAL ADMINISTRATIVE MEASURES (SAM)

Refer to the Office of General Counsel for specific SAM requirements. The governing Federal regulations are:

- 28 CFR 501.2, used in national security cases to prevent the unauthorized disclosure of classified information when the Attorney General determines that disclosure of such information would pose a threat to national security and there is a danger that the inmate will disclose such information.
- 28 CFR 501.3, used to prevent future acts of violence and terrorism when the Attorney General determines that there is a substantial risk that a prisoner's communications or contacts with persons could result in death or serious bodily injury to persons, or substantial damage to property that would entail the risk of death or serious bodily injury to persons.

(b)(7)(E), (b)(7)(F)

(b)(7)(E), (b)(7)(F)

Appropriately labeled and processed/placed special or legal (attorney-client privileged) communications will not be monitored.

(b)(7)(E), (b)(7)(F)

(b)(7)(E), (b)(7)(F)

403. PROTECTIVE CUSTODY CASES

A Protective Custody (PC) case is completed when an inmate is placed in administrative detention for protection at his/her request or upon staff determination that the inmate needs protection from a specific inmate(s). If there is a generalized perceived threat against an inmate, a threat assessment is conducted. See the Program Statement **Special Housing Units (SHU)** for specific categories under which staff may consider inmates as potential protection cases.

The situation of inmates in protective custody must be investigated to determine validity or verify the inmate's need for protection.

(b)(7)(E), (b)(7)(F)

(b)(7)(E); (b)(7)(F)

408. INMATE ON INMATE SEXUAL MISCONDUCT

Once an allegation of sexual misconduct is brought to a staff member's attention, it is important to determine if the allegation qualifies as abusive sexual contact or a non-consensual sexual act.

SIS staff will promptly refer inmates reported or suspected of being the victim of sexually abusive behavior by staff or inmates to Psychology Services for assessment of vulnerability and treatment needs, and all inmate allegations of sexual abuse, by a staff member or an inmate, will be handled in a confidential manner by all staff involved in the investigation in accordance with the Program Statement **Sexually Abusive Behavior Prevention and Intervention Program**.

1. Definitions

a. **Abusive Sexual Contact.** Any allegation of contact to sexually exploit an inmate without his/her consent, or of one who is unable to consent or refuse; and intentional touching, either directly or through the clothing, of the genitalia, anus, groin, breast, inner thigh, or buttocks of any inmate.

b. **Non-Consensual Sexual Act.** Any allegation of contact of any inmate without his/her consent, or of one who is unable to consent or refuse; contact between the penis and vagina or penis and anus, including penetration, however slight; or contact between the mouth and the penis, vagina, or anus; or penetration of the anal or genital opening of another by a hand, finger, or other object.

c. **Repetitive Sexual Harassment.** Repeated and unwelcome sexual advances, requests for sexual favors, or verbal comments, gestures, or actions of a derogatory or offensive sexual nature by one inmate, detainee, or resident directed toward another; repeated verbal comments or gestures of a sexual nature to an inmate, detainee, or resident by a staff member, contractor, or volunteer, including demeaning references to gender, sexually suggestive or derogatory comments about body or clothing, or obscene language or gestures.

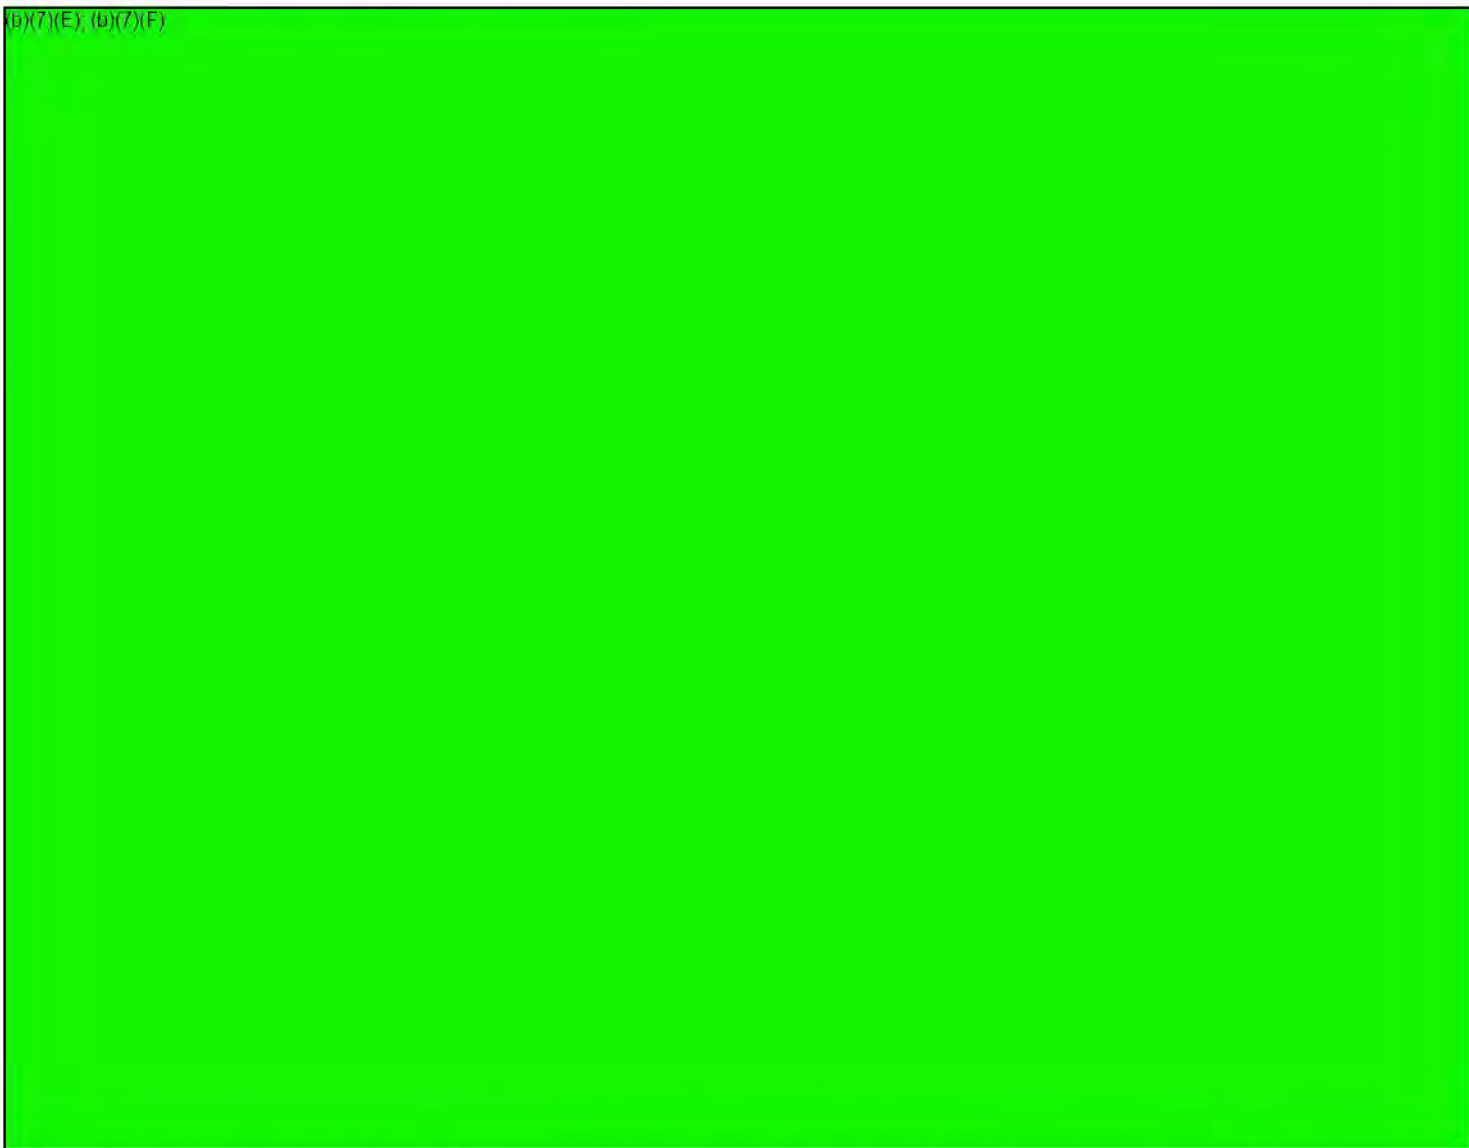

d. **Substantiated.** Proven to have occurred.

e. **Unsubstantiated.** Insufficient evidence or conflicting facts, creating the inability to prove that an assault happened or did not happen.

(b)(7)(E); (b)(7)(F)

f. **Unfounded.** Proven not to have occurred.

(b)(7)(E), (b)(7)(F)

If an inmate alleges that he/she was assaulted at another facility, the statement is taken with as much detail as possible and forwarded to that facility for investigation.

(b)(7)(E), (b)(7)(F)

(b)(7)(E), (b)(7)(F)

Recorded inmate telephone conversations are normally maintained in the system for 180 days

(b)(7)(E), (b)(7)(F)

Inmates are never authorized to use another inmate's Personal Access Code (PAC) Number, or to give their PAC Number to another inmate.

603. ELECTRONIC MESSAGING SYSTEM

Refer to the Program Statement **Trust Fund Limited Inmate Computer System – Electronic Messaging** for requirements for satisfaction of transactional data requests. (b)(7)(E), (b)(7)(F)

(b)(7)(E), (b)(7)(F)

Inmate electronic messages are monitored to ensure inmates are not using coded or encrypted messages, sending messages to continue criminal activity, or sending messages that jeopardize the safety, security, or orderly operation of the institution.

(b)(7)(E), (b)(7)(F)

Electronic messages are normally maintained in the system for 180 days (b)(7)(E), (b)(7)(F)

(b)(7)(E), (b)(7)(F)

Rules surrounding rejecting messages or contacts can be found in the Program Statement
Correspondence.

(b)(7)(E), (b)(7)(F)

See the Program Statement **Jurisdiction on Escape Related Issues – Memorandum of Understanding USMS/FBI/BOP** for escape-related referral procedures. In these cases, the investigator also needs a photograph, fingerprint card, visiting record, and escape flyers for the inmate(s). (b)(7)(E), (b)(7)(F)

(b)(7)(E), (b)(7)(F)

3. Liaison Responsibility. When inmate criminal activities are referred to other law enforcement agencies, the Bureau maintains continuous liaison with these agencies to ensure referrals are considered appropriately. (b)(7)(E), (b)(7)(F)

(b)(7)(E), (b)(7)(F)

4. Acceptance/Declination. Each U.S. Attorney has an “office policy” or guidelines regarding types of cases to be accepted or declined for prosecution. (b)(7)(E), (b)(7)(F)

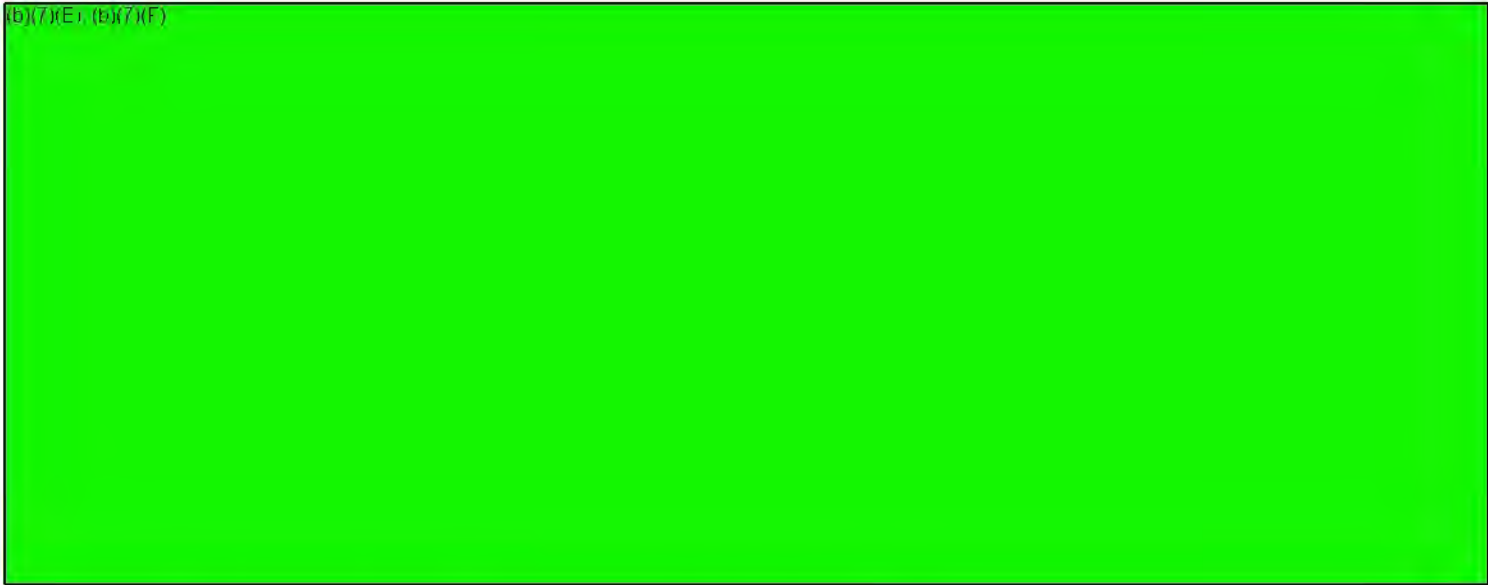

(b)(7)(E), (b)(7)(F)

5. Release for Administrative Processing. Per the Program Statement **Inmate Discipline Program**, administrative processing of the incident may proceed “unless there has been a request for such a delay by the prosecuting or investigating agency.” Once the preliminary investigative process is complete to the point that an Incident Report can be processed, the SIS notifies the investigating agency of “intent to proceed” to allow for proper coordination.

If administrative processing must be suspended, the date/time of suspension and release are noted in the system and section 25 of the Incident Report.

(b)(7)(E), (b)(7)(F)

(b)(7)(E), (b)(7)(F)

705. MONITORING WRITTEN CORRESPONDENCE

Inmate written correspondence is monitored per the Program Statement **Correspondence**.

The Executive Staff meeting is fast approaching. We need to provide Kathy with suggested "go round" topics. If your topic is selected, you will have to submit talking points and associated materials to the front office. This is an opportunity to submit hot topics to the Executive Staff for their informal feedback and input.

Due to the short turnaround, please provide me with your suggested topic(s) no later than the morning of August 1st. Thanks.

3. Bureau Of Prisons

This section discusses common issues that arise when dealing with the Bureau of Prisons, including how to obtain information relating to inmates, protocols for providing electronic discovery to incarcerated defendants, and how to arrange for proffers of incarcerated witnesses. In this District, BOP houses pre-trial detainees and certain defendants serving limited sentences at the Federal Detention Center in SeaTac, Washington (“FDC SeaTac”). The resident FDC Senior Attorney is a good resource for BOP issues not addressed in this Manual, and welcomes your questions.

- B. [Avoiding Inmate Attorney Client Communications](#)
- C. [Obtaining Other BOP Records](#)
- D. [Inmates and Electronic Discovery](#)
- E. [Requesting Separation of Inmates](#)
- F. [Proffers of Inmates](#)
- G. [Resources](#)

A. Obtaining Inmate Communications

Inmates at the FDC may make telephone calls and send and receive electronic mail. With the exception of calls made on specially-designated legal telephones, BOP monitors and records inmate calls and emails. The recorded communications, as well as the attendant transactional data associated with these communications, may be obtained from the BOP for use in criminal investigations and prosecutions. The legal analysis supporting such disclosures is set forth in the Department of Justice 2014 Memorandum entitled, “[Electronic Surveillance Procedures within the Federal Prison System](#).” Department of Justice policies, however, prescribe the use of different processes depending upon the type of data sought.

1. [Transactional Data](#): In the course of routine monitoring of its inmates, BOP collects data pertaining to all the telephone numbers called or email addresses contacted, the dates any calls or email communications took place, the list of visitors, and the amount of money placed on the inmate’s books and the source of the funds. The only process required to obtain these records is the submission of the BOP standard “[Request for Inmate Transactional Data](#)” form to the Special Investigative Services (SIS) Department email address: [\(b\)\(7\)\(E\); \(b\)\(7\)\(F\)@bop.gov](mailto:(b)(7)(E); (b)(7)(F)@bop.gov).
2. [Recorded Telephone Calls](#): In this District, copies of recorded telephone calls made by inmates are generally obtained pursuant to a grand jury [subpoena](#) (pre-indictment) or a trial subpoena (post-indictment) directed to the FDC. Please note that the subpoena cannot be prospective, and must include a

definitive date range for the calls sought. As with the Request for Transactional Data, subpoenas may be served via the Special Investigative Services (SIS) Department at [b)(7)(E); (b)(7)(F)]@bop.gov.

[b)(5)]

[b)(5)] If a trial subpoena becomes a concern, the 2014 DOJ memo provides that the preferred method to obtain inmate calls is the use of a letter request (“[US Attorney Letter Request for Jail Calls](#)”) endorsed by the United States Attorney.

3. **Email Communications:** [b)(5)]

[b)(5)]

[b)(5)] As a matter of BOP policy, inmate emails are retained for a minimum of 6 months. [b)(5)]

[b)(5)] As with other process, submit the email letter requests to the Special Investigative Services (SIS) Department at [b)(7)(E); (b)(7)(F)]@bop.gov.

B. Avoiding Inmate Attorney Client Communications

BOP expressly notifies inmates that it monitors general telephone and email communications and, therefore, communications with counsel should not occur through such means. [b)(5)]

[b)(5)]

C. Obtaining Other BOP Records

The BOP maintains a variety of other records pertaining to inmates that may be relevant to an investigation or in the course of litigation. Available records include the following:

Inmate Central File

Inmate Medical File

Psychology Records

Visiting Records

Discipline Records

Financial records, i.e. records relating to monetary deposits on an inmate's books.

For standard "transactional records" pertaining to an inmate, i.e. telephone numbers called, the visitor lists, email communications, and financial deposit records, the [Request for Inmate Transactional Data Form](#) should be used to seek such records. Otherwise, consult with the FDC Senior Attorney to determine the best means of obtaining the information.

D. Inmates and Electronic Discovery

Defense counsel can provide their detained clients with personal copies of electronic discovery for review at the FDC. If the discovery is not under a protective order, FDC SeaTac permits inmates to keep the media that contains such discovery with his or her personal belongings so that he or she can review the material at any time with the electronic discovery computers that are available in the housing units or in the Law Library.

If discovery is under a protective order, and the court permits inmate access to such discovery without the presence of counsel, the defense must send the electronic media directly to the FDC's Educational Department. The FDC will then maintain the protected discovery in its Law Library and the inmate can access the discovery only during his or her Law Library time (usually 3 hours per week). (b)(5)

(b)(5)

E. Requesting Separation of Inmates

Inmates who are cooperating with law enforcement may need to be separated from the targets of their cooperation if they are detained in the same facility. For FDC SeaTac, address separation requests to the Case Management Coordinator at (b)(7)(E); (b)(7)(F) @bop.gov. The separation request should identify the individuals to be kept separate and specify facts justifying the separation. If BOP grants the request, the relevant individuals will be housed in

separate units, not permitted in the common areas at the same time, and will be transported to court in separate transports.

F. Proffers of Inmates

Generally, proffers of inmates take place in the common visitation area of FDC SeaTac where interview rooms are available. If, however, the safety and security of the inmate will be compromised by conducting a proffer session at the FDC, the AUSA can request that an

Subject: FDC Changes in EDiscovery Distribution and Information Regarding FDC SeaTac Pretrial Inmate Computers

Dear Ms. [REDACTED]

I wanted to let you know that I, and FDC staff, are now implementing the changes to how ediscovery is being processed at the institution. I have communicated the changes with the Federal Public Defender's Office and the CJA panel attorneys, and they are receptive to the changes. Your office will not be greatly affected by the changes, unless the defendant is pro-se or the ediscovery is subject to a protective order. Here is a summary of how ediscovery will now be processed at FDC:

All attorneys sending in ediscovery will need to complete the top portion of the Discovery Material Authorization Form (attached). Typically, the defense attorneys will be completing this form, but in situations where the inmate is pro-se (and does not have stand-by counsel), the AUSA will be the individual completing the form. The form must contain the inmate's name

REFER TO BOP

and register number, the number of CD/DVDs, the federal case number, and the attorney's contact information. The attorney then must sign a certification indicating that the items contained in the package consist solely of the ediscovery material and the media consists solely of discovery material relating to the inmate/client's federal case. The legal mail/ediscovery package requirements are listed on the second page of the Discovery Material Authorization Form. The package will be processed as legal mail if the package requirements are met. Once the inmate receives the legal mail/ediscovery, he or she will need to sign the Acknowledgment of Receipt of Property portion of the Discovery Authorization Form. The inmate will receive a copy of the form and another copy will be maintained in the inmate's FDC file.

If the ediscovery is subject to a protective order, I am requesting that the AUSA and/or defense counsel call me to arrange for distribution of the ediscovery pursuant to the protective order.

I would also note that because this is a correctional environment, certain material is not suitable for a housing unit, including, another individual's social security numbers or identifying information, violent images, and/or sexually explicit images and nudity. b)(5)

b)(5)

Lastly, I am providing the following information about the pretrial inmates' computers for ediscovery use.

All the Pretrial Inmate Discovery Computers have the following programs:

- Hawk Player
- Abode Acrobat 9
- Microsoft Word Viewer
- Microsoft Excel Viewer
- Microsoft PowerPoint Viewer
- FTR Player
- WIN DVD
- Nero Video Player
- Nero Photo Player
- Quicktime 7
- VLC Media Player
- Quickview Plus 12

I have attached a copy of the supported file formats that Quickview Plus 12 support. Programs other than the ones listed will not be able to be viewed at the FDC.

REFER TO BOP

All pretrial housing units have one Inmate Discovery Computer. The Education Department has two Inmate Discovery Computers, but the Education Department often "shares" one of their Inmate Discovery Computers with SHU. I would also note that the Inmate Discovery computers in the Education Department allow the inmates to view executable files that are installed on the discs. That being stated, zip files cannot be opened by inmates.

I know this is a lot of information, but I wanted to provide it to you as soon as possible and before the training should questions begin to arise. Thank you again for welcoming me to the Seattle legal community. I look forward to meeting everyone at the training. Call me if you need assistance with this or other FDC matters.

Change Order

Bureau of Prisons TRUFACS Project	Change Control Number: 48800
Requested by:	Date of Request: 10/10/2014
Name: (b)(6); (b)(7)(C)	Organization: (b)(6); (b)(7)(C)
Phone #: (b)(6); (b)(7)(C)	E-mail address: (b)(6); (b)(7)(C)

Description of:**System:** TRULINCS

Issue: Create a new message search screen called "Legal/LEO Message Search". This screen should not display messages to/from the selected active contact email addresses. Also, add a UDM/nag message to the "Save/Print All" button before the PDF is displayed.

Change requirement: Create a new message search screen to only display messages to/from email addresses that are not selected.

Needs justification: BOP Requirement to allow the user to exclude messages from certain email contacts.

Actions required:

- 1) Create a new message search screen called "Legal/LEO Message Search" for staff. This screen will exclude the messages to/from the selected contact email addresses.
- 2) Search criteria on this screen will include the following:

 - Institution
 - Inmate Reg#
 - Start Date/Time
 - End Date/Time
 - Subject Lookup
 - Email address
 - List of Email addresses to hide
 - Status
 - Messages - Incoming/ Outgoing/ Draft/ All/ Include Drafts/Include Staff
- 3) In case the user selects "Email Address" criteria, "List of email addresses to hide" will not be available and vice versa.
- 4) The "List of email addresses to hide" will list all email addresses associated with the inmate by default. The users will have the option to restrict the display to only the active emails. Users will be able to select multiple email addresses to hide from their search.
- 5) A new user defined nag message will be displayed when the "Save/Print All" button is selected.
- 6) New Database procedures to support the above.
- 7) Design test cases.
- 8) Execute tests and verify results.
- 9) Update documentation.
