Ground Rules for Participating

By registering to participate, employers agree to the following:

No Pre-Screening or Advance Copies of Transcripts

Students submit bids for employer interviews, which are assigned by computer lottery (subject to students’ preferences and availability). Employers are not permitted to prescreen candidates. Students’ materials will be available online at the latest 3 days in advance of the interviews. However, transcripts are not made available prior to the interview. Nor do we permit employers to request that students provide them in advance. However, they will be provided on the day of your scheduled interviews through the Flo Recruit platform.
