SECTION H - SPECIAL CONTRACT REQUIREMENTS

H.1. PROCEDURE FOR OPENING ADDITIONAL ISAP IV LOCATIONS

In accordance with the ISAP IV Statement of Work as well as Attachment 7 - Location Overview, the Government intends to expand its ISAP coverage to additional Enforcement and Removal Operations (ERO) Field Office and Sub-Office locations under the ISAP IV contract through the establishment of new contractor facilities and assignment of contractor personnel working on-site at government facilities as required by need and mission priorities. The contractor shall be notified in writing, via bilateral contract modification, of the Government’s intent to open a new ISAP IV Field Office or Sub-Office location(s). The modification shall be signed by the ISAP IV Contracting Officer and issued to the ISAP IV Program Director and/or Deputy Program Director. The designated ERO field office and/or sub-office location(s) may require C-, G-, S- or T-site services. The contractor shall have no more than thirty (30) calendar days for G-, S- and T-site locations and no more than ninety (90) calendar days for C-site locations (contingent upon adequate real estate availability) from receipt of the written notice to commence ISAP IV services and fulfill all SOW requirements at the specific location(s) identified herein. The contractor shall be prepared with sufficient staff and equipment to provide ISAP IV services for the full (i.e., maximum) number of anticipated ISAP IV participant slots for that location.

Offerors are encouraged to review Attachment 11 – Expansion History by Contract Year as well as Attachment 12 – FY18 ISAP III Statistics.

H.2. REQUIRED SECURITY LANGUAGE FOR SENSITIVE /BUT UNCLASSIFIED (SBU) CONTRACTS

SECURITY REQUIREMENTS

H.2.1. General

The United States Immigration and Customs Enforcement (ICE) has determined that performance of the tasks as described in Contract_____ requires that the Contractor, subcontractor(s), vendor(s), etc. (herein known as Contractor) have access to sensitive DHS information, and that the Contractor will adhere to the following.

H.2.2. Preliminary Fitness Determination

ICE will exercise full control over granting, denying, withholding or terminating unescorted government facility and/or sensitive Government information access for contractor employees, based upon the results of a Fitness screening process. ICE may, as it deems appropriate, authorize and make a favorable expedited preliminary Fitness determination based on preliminary security checks. The preliminary Fitness determination will allow the contractor employee to commence work temporarily prior to the completion of a Full Field Background Investigation. The granting of a favorable preliminary Fitness shall not be considered as assurance that a favorable final Fitness determination will follow as a result thereof. The granting of preliminary Fitness or final Fitness shall in no
way prevent, preclude, or bar the withdrawal or termination of any such access by ICE, at any time during the term of the contract. No employee of the Contractor shall be allowed to enter on duty and/or access sensitive information or systems without a favorable preliminary Fitness determination or final Fitness determination by the Office of Professional Responsibility, Personnel Security Unit (OPR-PSU). No employee of the Contractor shall be allowed unescorted access to a Government facility without a favorable preliminary Fitness determination or final Fitness determination by OPR-PSU. Contract employees are processed under DHS Instruction 121-01-007-001 (Personnel Security, Suitability and Fitness Program), or successor thereto; those having direct contact with Detainees will also have 6 CFR § 115.117 considerations made as part of the Fitness screening process. (Sexual Abuse and Assault Prevention Standards) implemented pursuant to Public Law 108-79 (Prison Rape Elimination Act (PREA) of 2003).

**H.2.3. Background Investigations**

Contractor employees (to include applicants, temporaries, part-time and replacement employees) under the contract, needing access to sensitive information and/or ICE Detainees, shall undergo a position sensitivity analysis based on the duties each individual will perform on the contract. The results of the position sensitivity analysis shall identify the appropriate background investigation to be conducted. Background investigations will be processed through the Personnel Security Unit. Contractor employees nominated by a Contracting Officer Representative for consideration to support this contract shall submit the following security vetting documentation to OPR-PSU, through the Contracting Officer Representative (COR), within 10 days of notification by OPR-PSU of nomination by the COR and initiation of an Electronic Questionnaire for Investigation Processing (e-QIP) in the Office of Personnel Management (OPM) automated on-line system.

1. Standard Form 85P (Standard Form 85PS (With supplement to 85P required for armed positions)), “Questionnaire for Public Trust Positions” Form completed on-line and archived by the contractor employee in their OPM e-QIP account.

2. Signature Release Forms (Three total) generated by OPM e-QIP upon completion of Questionnaire (e-signature recommended/acceptable – instructions provided to applicant by OPR-PSU). Completed on-line and archived by the contractor employee in their OPM e-QIP account.

3. Two (2) SF 87 (Rev. December 2017) Fingerprint Cards. (Two Original Cards sent via COR to OPR-PSU)

4. Foreign National Relatives or Associates Statement. (This document sent as an attachment in an e-mail to contractor employee from OPR-PSU – must be signed and archived into contractor employee’s OPM e-QIP account prior to electronic “Release” of data via on-line account)
5. DHS 11000-9, “Disclosure and Authorization Pertaining to Consumer Reports Pursuant to the Fair Credit Reporting Act” (This document sent as an attachment in an e-mail to contractor employee from OPR-PSU – must be signed and archived into contractor employee’s OPM e-QIP account prior to electronic “Release” of data via on-line account)

6. Optional Form 306 Declaration for Federal Employment (This document sent as an attachment in an e-mail to contractor employee from OPR-PSU – must be signed and archived into contractor employee’s OPM e-QIP account prior to electronic “Release” of data via on-line account)

7. If occupying PREA designated position: Questionnaire regarding conduct defined under 6 CFR § 115.117 (Sexual Abuse and Assault Prevention Standards) (This document sent as an attachment in an e-mail to contractor employee from OPR-PSU – must be signed and archived into contractor employee’s OPM e-QIP account prior to electronic “Release” of data via on-line account)

8. One additional document may be applicable if contractor employee was born abroad. If applicable, additional form and instructions will be provided to contractor employee. (If applicable, the document will be sent as an attachment in an e-mail to contractor employee from OPR-PSU – must be signed and archived into contractor employee’s OPM e-QIP account prior to electronic “Release” of data via on-line account)

Contractor employees who have an adequate, current investigation by another Federal Agency may not be required to submit complete security packages; the investigation may be accepted under reciprocity. The questionnaire related to 6 CFR § 115.117 listed above in item 7 will be required for positions designated under PREA.

An adequate and current investigation is one where the investigation is not more than five years old, meets the contract risk level requirement, and applicant has not had a break in service of more than two years. (Executive Order 13488 amended under Executive Order 13764/DHS Instruction 121-01-007-01)

Required information for submission of security packet will be provided by OPR-PSU at the time of award of the contract. Only complete packages will be accepted by the OPR-PSU as notified by the COR.

To ensure adequate background investigative coverage, contractor employees must currently reside in the United States or its Territories. Additionally, contractor employees are required to have resided within the Unites States or its Territories for three or more years out of the last five (ICE retains the right to deem a contractor employee ineligible due to insufficient background coverage). This time-line is assessed based on the signature date of the standard form questionnaire submitted for the applied position. Contractor employees falling under the following situations may
be exempt from the residency requirement: 1) work or worked for the U.S. Government in foreign countries in federal civilian or military capacities; 2) were or are dependents accompanying a federal civilian or a military employee serving in foreign countries so long as they were or are authorized by the U.S. Government to accompany their federal civilian or military sponsor in the foreign location; 3) worked as a contractor employee, volunteer, consultant or intern on behalf of the federal government overseas, where stateside coverage can be obtained to complete the background investigation; 4) studied abroad at a U.S. affiliated college or university; or 5) have a current and adequate background investigation (commensurate with the position risk/sensitivity levels) completed for a federal or contractor employee position, barring any break in federal employment or federal sponsorship.

Only U.S. Citizens and Legal Permanent Residents are eligible for employment on contracts requiring access to DHS sensitive information unless an exception is granted as outlined under DHS Instruction 121-01-007-001. Per DHS Sensitive Systems Policy Directive 4300A, only U.S. citizens are eligible for positions requiring access to DHS Information Technology (IT) systems or positions that are involved in the development, operation, management, or maintenance of DHS IT systems, unless an exception is granted as outlined under DHS Instruction 121-01-007-001.

H.2.4. Transfers from Other DHS Contracts

Contractor employees may be eligible for transfer from other DHS Component contracts provided they have an adequate and current investigation meeting the new assignment requirement. If the contractor employee does not meet the new assignment requirement a DHS 11000-25 with ICE supplemental page will be submitted to OPR-PSU to initiate a new investigation.

Transfers will be accomplished by submitting a DHS 11000-25 with ICE supplemental page indicating “Contract Change.” The questionnaire related to 6 CFR § 115.117 listed above in item 7 will be required for positions designated under PREA.

H.2.5. Continued Eligibility

ICE reserves the right and prerogative to deny and/or restrict facility and information access of any contractor employee whose actions conflict with Fitness standards contained in DHS Instruction 121-01-007-01, Chapter 3, paragraph 6.B or who violate standards of conduct under 6 CFR § 115.117. The Contracting Officer or their representative can determine if a risk of compromising sensitive Government information exists or if the efficiency of service is at risk and may direct immediate removal of a contractor employee from contract support. The OPR-PSU will conduct periodic reinvestigations every 5 years, or when derogatory information is received, to evaluate continued Fitness of contractor employees.

H.2.6. Required Reports
The Contractor will notify OPR-PSU, via the COR, of all terminations/resignations of contractor employees under the contract within five days of occurrence. The Contractor will return any expired ICE issued identification cards and building passes of terminated/resigned employees to the COR. If an identification card or building pass is not available to be returned, a report must be submitted to the COR referencing the pass or card number, name of individual to whom issued, the last known location and disposition of the pass or card. The COR will return the identification cards and building passes to the responsible ID Unit.

The Contractor will report any adverse information coming to their attention concerning contractor employees under the contract to the OPR-PSU, via the COR, as soon as possible. Reports based on rumor or innuendo should not be made. The subsequent termination of employment of an employee does not obviate the requirement to submit this report. The report shall include the contractor employees’ name and social security number, along with the adverse information being reported.

The Contractor will provide, through the COR a Quarterly Report containing the names of contractor employees who are active, pending hire, have departed within the quarter or have had a legal name change (Submitted with documentation). The list shall include the Name, Position and SSN (Last Four) and should be derived from system(s) used for contractor payroll/voucher processing to ensure accuracy.

CORs will submit reports to psu-industrial-security@ice.dhs.gov

Contractors, who are involved with management and/or use of information/data deemed “sensitive” to include ‘law enforcement sensitive’ are required to complete the DHS Form 11000-6-Sensitive but Unclassified Information NDA for contractor access to sensitive information. The NDA will be administered by the COR to the all contract personnel within 10 calendar days of the entry on duty date. The completed form shall remain on file with the COR for purpose of administration and inspection.

Sensitive information as defined under the Computer Security Act of 1987, Public Law 100-235 is information not otherwise categorized by statute or regulation that if disclosed could have an adverse impact on the welfare or privacy of individuals or on the welfare or conduct of Federal programs or other programs or operations essential to the national interest. Examples of sensitive information include personal data such as Social Security numbers; trade secrets; system vulnerability information; pre-solicitation procurement documents, such as statements of work; and information pertaining to law enforcement investigative methods; similarly, detailed reports related to computer security deficiencies in internal controls are also sensitive information because of the potential damage that could be caused by the misuse of this information. All sensitive information must be protected from loss, misuse, modification, and unauthorized access in accordance with DHS Management Directive 11042.1, DHS Policy for Sensitive Information and ICE Policy 4003, Safeguarding Law Enforcement Sensitive Information.”
Any unauthorized disclosure of information should be reported to ICE.ADSEC@ICE.dhs.gov.

H.2.7. Security Management

The Contractor shall appoint a senior official to act as the Corporate Security Officer. The individual will interface with the OPR-PSU through the COR on all security matters, to include physical, personnel, and protection of all Government information and data accessed by the Contractor.

The COR and the OPR-PSU shall have the right to inspect the procedures, methods, and facilities utilized by the Contractor in complying with the security requirements under this contract. Should the COR determine that the Contractor is not complying with the security requirements of this contract, the Contractor will be informed in writing by the Contracting Officer of the proper action to be taken in order to effect compliance with such requirements.

H.2.8. Information Technology Security Clearance

When sensitive government information is processed on Department telecommunications and automated information systems, the Contractor agrees to provide for the administrative control of sensitive data being processed and to adhere to the procedures governing such data as outlined in DHS MD 4300.1, Information Technology Systems Security, or its replacement. Contractor employees must have favorably adjudicated background investigations commensurate with the defined sensitivity level.

Contractor employees who fail to comply with Department security policy are subject to having their access to Department IT systems and facilities terminated, whether or not the failure results in criminal prosecution. Any person who improperly discloses sensitive information is subject to criminal and civil penalties and sanctions under a variety of laws (e.g., Privacy Act).

H.2.9 Information Technology Security Training and Oversight

In accordance with Chief Information Office requirements and provisions, all contractor employees accessing Department IT systems or processing DHS sensitive data via an IT system will require an ICE issued/provisioned Personal Identity Verification (PIV) card. Additionally, Information Assurance Awareness Training (IAAT) will be required upon initial access and annually thereafter. IAAT training will be provided by the appropriate component agency of DHS.

Contractor employees, who are involved with management, use, or operation of any IT systems that handle sensitive information within or under the supervision of the Department, shall receive periodic training at least annually in security awareness and accepted security practices, systems rules of behavior, to include Unauthorized
Disclosure Training, available on PALMS or by contacting ICE.ADSEC@ICE.dhs.gov. Department contractor employees, with significant security responsibilities, shall receive specialized training specific to their security responsibilities annually. The level of training shall be commensurate with the individual’s duties and responsibilities and is intended to promote a consistent understanding of the principles and concepts of telecommunications and IT systems security.

All personnel who access Department information systems will be continually evaluated while performing these duties. System Administrators should be aware of any unusual or inappropriate behavior by personnel accessing systems. Any unauthorized access, sharing of passwords, or other questionable security procedures should be reported to the local Security Office or Information System Security Officer (ISSO).

H.3 ICE INFORMATION GOVERNANCE AND PRIVACY REQUIREMENTS CLAUSE (JUL 2017)

No section of this clause may be read as self-deleting unless the terms of the contract meet the requirements for self-deletion as specified in this clause.

H.3.1. Limiting Access to Privacy Act and Other Sensitive Information

(1) Privacy Act Information
In accordance with FAR 52.224-1 Privacy Act Notification (APR 1984), and FAR 52.224-2 Privacy Act (APR 1984), if this contract requires contractor personnel to have access to information protected by the Privacy Act of 1974 the contractor is advised that the relevant DHS system of records notices (SORNs) applicable to this Privacy Act information may be found at www.dhs.gov/privacy. Applicable SORNS of other agencies may be accessed through the agencies’ websites or by searching FDsys, the Federal Digital System, available at http://www.gpo.gov/fdsys/. SORNs may be updated at any time.

(2) Prohibition on Performing Work Outside a Government Facility/Network/Equipment
The Contractor shall perform all tasks on authorized Government networks, using Government-furnished IT and other equipment and/or Workplace as a Service (WaaS) if WaaS is authorized by the statement of work. Government information shall remain within the confines of authorized Government networks at all times. Except where telework is specifically authorized within this contract, the Contractor shall perform all tasks described in this document at authorized Government facilities; the Contractor is prohibited from performing these tasks at or removing Government-furnished information to any other facility; and Government information shall remain within the confines of authorized Government facilities at all times. Contractors may only access classified materials on government furnished equipment in authorized government owned facilities regardless of telework authorizations.

(3) Prior Approval Required to Hire Subcontractors
The Contractor is required to obtain the Contracting Officer's approval prior to engaging in any contractual relationship (Subcontractor) in support of this contract requiring the disclosure of information, documentary material and/or records generated under or relating to
this contract. The Contractor (and any Subcontractor) is required to abide by Government and Agency guidance for protecting sensitive and proprietary information.

(4) Separation Checklist for Contractor Employees
Contractor shall complete a separation checklist before any employee or Subcontractor employee terminates working on the contract. The separation checklist must verify: (1) return of any Government-furnished equipment; (2) return or proper disposal of sensitive personally identifiable information (PII), in paper or electronic form, in the custody of the employee or Subcontractor employee including the sanitization of data on any computer systems or media as appropriate; and (3) termination of any technological access to the Contractor’s facilities or systems that would permit the terminated employee’s access to sensitive PII.

In the event of adverse job actions resulting in the dismissal of an employee or Subcontractor employee, the Contractor shall notify the Contracting Officer’s Representative (COR) within 24 hours. For normal separations, the Contractor shall submit the checklist on the last day of employment or work on the contract.

As requested, contractors shall assist the ICE Point of Contact (ICE/POC), Contracting Officer, or COR with completing ICE Form 50-005/Contractor Employee Separation Clearance Checklist by returning all Government-furnished property including but not limited to computer equipment, media, credentials and passports, smart cards, mobile devices, PIV cards, calling cards, and keys and terminating access to all user accounts and systems.

H.3.2. Privacy Training, Safeguarding, and Remediation

If the Safeguarding of Sensitive Information (MAR 2015) and Information Technology Security and Privacy Training (MAR 2015) clauses are included in this contract, section H.3.2 is deemed self-deleting.

(1) Required Security and Privacy Training for Contractors
Contractor shall provide training for all employees, including Subcontractors and independent contractors who have access to sensitive personally identifiable information (PII) as well as the creation, use, dissemination and/or destruction of sensitive PII at the outset of the employee’s work on the contract and every year thereafter. Training must include procedures on how to properly handle sensitive PII, including security requirements for the transporting or transmission of sensitive PII, and reporting requirements for a suspected breach or loss of sensitive PII. All Contractor employees are required to take the Privacy at DHS: Protecting Personal Information training course. This course, along with more information about DHS security and training requirements for Contractors, is available at www.dhs.gov/dhs-security-and-training-requirements-contractors. The Federal Information Security Management Act (FISMA) requires all individuals accessing ICE information to take the annual Information Assurance Awareness Training course. These courses are available through the ICE intranet site or the Agency may also make the training available through hypertext links or CD. The Contractor shall maintain copies of employees’ certificates of completion as a record of compliance and must submit an annual e-mail notification to the ICE Contracting Officer’s Representative that the required training has been completed for all the Contractor’s employees.
(2) Safeguarding Sensitive PII Requirement
Contractor employees shall comply with the Handbook for Safeguarding sensitive PII at DHS at all times when handling sensitive PII, including the encryption of sensitive PII as required in the Handbook. This requirement will be flowed down to all subcontracts and lower tiered subcontracts as well.

(3) Non-Disclosure Agreement Requirement
All Contractor personnel that may have access to PII or other sensitive information shall be required to sign a Non-Disclosure Agreement (DHS Form 11000-6) prior to commencing work. The Contractor shall maintain signed copies of the NDA for all employees as a record of compliance. The Contractor shall provide copies of the signed NDA to the Contracting Officer’s Representative (COR) no later than two (2) days after execution of the form.

(4) Prohibition on Use of PII in Vendor Billing and Administrative Records
The Contractor’s invoicing, billing, and other financial/administrative records/databases may not store or include any sensitive Government information, such as PII that is created, obtained, or provided during the performance of the contract. It is acceptable to list the names, titles and contact information for the Contracting Officer, Contracting Officer’s Representative, or other ICE personnel associated with the administration of the contract in the invoices as needed.

(5) Reporting Suspected Loss of Sensitive PII
Contractors must report the suspected loss or compromise of sensitive PII to ICE in a timely manner and cooperate with ICE’s inquiry into the incident and efforts to remediate any harm to potential victims.

1. The Contractor must develop and include in its security plan (which is submitted to ICE) an internal system by which its employees and Subcontractors are trained to identify and report the potential loss or compromise of sensitive PII.

2. The Contractor must report the suspected loss or compromise of sensitive PII by its employees or Subcontractors to the ICE Security Operations Center (480-496-6627), the Contracting Officer’s Representative (COR), and the Contracting Officer within one (1) hour of the initial discovery.

3. The Contractor must provide a written report to ICE within 24 hours of the suspected loss or compromise of sensitive PII by its employees or Subcontractors. The report must contain the following information:
   a. Narrative or detailed description of the events surrounding the suspected loss or compromise of information.
   b. Date, time, and location of the incident.
   c. Type of information lost or compromised.
d. Contractor’s assessment of the likelihood that the information was compromised or lost and the reasons behind the assessment.

e. Names of person(s) involved, including victim, Contractor employee/Subcontractor and any witnesses.

f. Cause of the incident and whether the company’s security plan was followed and, if not, which specific provisions were not followed.

g. Actions that have been or will be taken to minimize damage and/or mitigate further compromise.

h. Recommendations to prevent similar situations in the future, including whether the security plan needs to be modified in any way and whether additional training may be required.

4. The Contractor shall provide full access and cooperation for all activities determined by the Government to be required to ensure an effective incident response, including providing all requested images, log files, and event information to facilitate rapid resolution of sensitive information incidents.

5. At the Government’s discretion, Contractor employees or Subcontractor employees may be identified as no longer eligible to access sensitive PII or to work on that contract based on their actions related to the loss or compromise of sensitive PII.

(6) Victim Remediation
The Contractor is responsible for notifying victims and providing victim remediation services in the event of a loss or compromise of sensitive PII held by the Contractor, its agents, or its Subcontractors, under this contract. Victim remediation services shall include at least 18 months of credit monitoring and, for serious or large incidents as determined by the Government, call center help desk services for the individuals whose sensitive PII was lost or compromised. The Contractor and ICE will collaborate and agree on the method and content of any notification that may be required to be sent to individuals whose sensitive PII was lost or compromised.

H.3.3. Government Records Training, Ownership, and Management

(1) Records Management Training and Compliance
(a) The Contractor shall provide DHS basic records management training for all employees and Subcontractors that have access to sensitive PII as well as to those involved in the creation, use, dissemination and/or destruction of sensitive PII. This training will be provided at the outset of the Subcontractor’s/employee’s work on the contract and every year thereafter. This training can be obtained via links on the ICE intranet site or it may be made available through other means (e.g., CD or online). The Contractor shall maintain copies of certificates as a record of compliance and must submit an e-mail notification annually to the Contracting Officer’s Representative verifying that all employees working under this contract have completed the required records management training.

(b) The Contractor agrees to comply with Federal and Agency records management policies, including those policies associated with the safeguarding of records covered
by the Privacy Act of 1974. These policies include the preservation of all records created or received regardless of format, mode of transmission, or state of completion.

(2) Records Creation, Ownership, and Disposition
(a) The Contractor shall not create or maintain any records not specifically tied to or authorized by the contract using Government IT equipment and/or Government records or that contain Government Agency data. The Contractor shall certify in writing the destruction or return of all Government data at the conclusion of the contract or at a time otherwise specified in the contract.

(b) Except as stated in the Performance Work Statement and, where applicable, the Contractor’s Commercial License Agreement, the Government Agency owns the rights to all electronic information (electronic data, electronic information systems or electronic databases) and all supporting documentation and associated metadata created as part of this contract. All deliverables (including all data and records) under the contract are the property of the U.S. Government and are considered federal records, for which the Agency shall have unlimited rights to use, dispose of, or disclose such data contained therein. The Contractor must deliver sufficient technical documentation with all data deliverables to permit the agency to use the data.

(c) The Contractor shall not retain, use, sell, disseminate, or dispose of any government data/records or deliverables without the express written permission of the Contracting Officer or Contracting Officer’s Representative. The Agency and its contractors are responsible for preventing the alienation or unauthorized destruction of records, including all forms of mutilation. Willful and unlawful destruction, damage or alienation of Federal records is subject to the fines and penalties imposed by 18 U.S.C. § 2701. Records may not be removed from the legal custody of the Agency or destroyed without regard to the provisions of the Agency records schedules.

H.3.4. Data Privacy and Oversight

Section H.3.4 applies to information technology (IT) contracts. If this is not an IT contract, section H.3.4 may read as self-deleting. ISAP IV has not been deemed an IT contract.

(1) Restrictions on Testing or Training Using Real Data Containing PII
The use of real data containing sensitive PII from any source for testing or training purposes is generally prohibited. The Contractor shall use synthetic or de-identified real data for testing or training whenever feasible. ICE policy requires that any proposal to use of real data or de-identified data for IT system testing or training be approved by the ICE Privacy Officer and Chief Information Security Officer (CISO) in advance. In the event performance of the contract requires or necessitates the use of real data for system-testing or training purposes, the Contractor in coordination with the Contracting Officer or Contracting Officer’s Representative and Government program manager shall obtain approval from the ICE Privacy Office and CISO and complete any required documentation.
If this IT contract contains the Safeguarding of Sensitive Information (MAR 2015) and Information Technology Security and Privacy Training (MAR 2015) clauses, section H.3.4.2 of this clause is deemed self-deleting.

(2) Requirements for Contractor IT Systems Hosting Government Data
The Contractor is required to obtain a Certification and Accreditation for any IT environment owned or controlled by the Contractor or any Subcontractor on which Government data shall reside for the purposes of IT system development, design, data migration, testing, training, maintenance, use, or disposal.

(3) Requirement to Support Privacy Compliance
(a) The Contractor shall support the completion of the Privacy Threshold Analysis (PTA) document when it is required. PTAs are triggered by the creation, modification, upgrade, or disposition of an IT system, and must be renewed at least every three years. Upon review of the PTA, the DHS Privacy Office determines whether a Privacy Impact Assessment (PIA) and/or Privacy Act System of Records Notice (SORN), or modifications thereto, are required. The Contractor shall provide adequate support to complete the PIA in a timely manner and shall ensure that project management plans and schedules include the PTA, PIA, and SORN (to the extent required) as milestones. Additional information on the privacy compliance process at DHS, including PTAs, PIAs, and SORNs, is located on the DHS Privacy Office website (www.dhs.gov/privacy) under “Compliance.” DHS Privacy Policy Guidance Memorandum 2008-02 sets forth when a PIA will be required at DHS, and the Privacy Impact Assessment Guidance and Template outline the requirements and format for the PIA.

(b) If the contract involves an IT system build or substantial development or changes to an IT system that may require privacy documentation, the Contractor shall assign or procure a Privacy Lead, to be listed under “Key Personnel.” The Privacy Lead shall be responsible for providing adequate support to DHS to ensure DHS can complete any required PTA, PIA, SORN, or other supporting documentation to support privacy compliance. The Privacy Lead shall work with personnel from the program office, the ICE Privacy Office, the Office of the Chief Information Officer, and the Records Management Branch to ensure that the privacy documentation is kept on schedule, that the answers to questions in the PIA are thorough and complete, and that questions asked by the ICE Privacy Office and other offices are answered in a timely fashion. The Privacy Lead:

- Must have excellent writing skills, the ability to explain technology clearly for a non-technical audience, and the ability to synthesize information from a variety of sources.
- Must have excellent verbal communication and organizational skills.
- Must have experience writing PIAs. Ideally the candidate would have experience writing PIAs for DHS.
• Must be able to work well with others.

(c) If a Privacy Lead is already in place with the program office and the contract involves IT system builds or substantial changes that may require privacy documentation, the requirement for a separate Private Lead specifically assigned under this contract may be waived provided the Contractor agrees to have the existing Privacy Lead coordinate with and support the ICE Privacy POC to ensure privacy concerns are proactively reviewed and so ICE can complete any required PTA, PIA, SORN, or other supporting documentation to support privacy compliance if required. The Contractor shall work with personnel from the program office, the ICE Office of Information Governance and Privacy, and the Office of the Chief Information Officer to ensure that the privacy documentation is kept on schedule, that the answers to questions in any privacy documents are thorough and complete, that all records management requirements are met, and that questions asked by the ICE Privacy Office and other offices are answered in a timely fashion.

H.4. INFORMATION TECHNOLOGY SECURITY AND PRIVACY TRAINING (MAR 2015)

(a) Applicability. This clause applies to the Contractor, its subcontractors, and Contractor employees (hereafter referred to collectively as “Contractor”). The Contractor shall insert the substance of this clause in all subcontracts.

(b) Security Training Requirements.

(1) All users of Federal information systems are required by Title 5, Code of Federal Regulations, Part 930.301, Subpart C, as amended, to be exposed to security awareness materials annually or whenever system security changes occur, or when the user’s responsibilities change. The Department of Homeland Security (DHS) requires that Contractor employees take an annual Information Technology Security Awareness Training course before accessing sensitive information under the contract. Unless otherwise specified, the training shall be completed within thirty (30) days of contract award and be completed on an annual basis thereafter not later than October 31st of each year. Any new Contractor employees assigned to the contract shall complete the training before accessing sensitive information under the contract. The training is accessible at http://www.dhs.gov/dhs-security-and-training-requirements-contractors. The Contractor shall maintain copies of training certificates for all Contractor and subcontractor employees as a record of compliance. Unless otherwise specified, initial training certificates for each Contractor and subcontractor employee shall be provided to the Contracting Officer’s Representative (COR) not later than thirty (30) days after contract award. Subsequent training certificates to satisfy the annual training requirement shall be submitted to the COR via e-mail notification not later than October 31st of each year. The e-mail notification shall state the required training has been completed for all Contractor and subcontractor employees.

(2) The DHS Rules of Behavior apply to every DHS employee, Contractor and subcontractor that will have access to DHS systems and sensitive information. The DHS Rules of Behavior shall be signed before accessing DHS systems and sensitive information. The DHS Rules of Behavior is a
document that informs users of their responsibilities when accessing DHS systems and holds users accountable for actions taken while accessing DHS systems and using DHS Information Technology resources capable of inputting, storing, processing, outputting, and/or transmitting sensitive information. The DHS Rules of Behavior is accessible at http://www.dhs.gov/dhs-security-and-training-requirements-contractors. Unless otherwise specified, the DHS Rules of Behavior shall be signed within thirty (30) days of contract award. Any new Contractor employees assigned to the contract shall also sign the DHS Rules of Behavior before accessing DHS systems and sensitive information. The Contractor shall maintain signed copies of the DHS Rules of Behavior for all Contractor and subcontractor employees as a record of compliance. Unless otherwise specified, the Contractor shall e-mail copies of the signed DHS Rules of Behavior to the COR not later than thirty (30) days after contract award for each employee. The DHS Rules of Behavior will be reviewed annually and the COR will provide notification when a review is required.

(c) Privacy Training Requirements. All Contractor and subcontractor employees that will have access to Personally Identifiable Information (PII) and/or Sensitive PII (SPII) are required to take Privacy at DHS: Protecting Personal Information before accessing PII and/or SPII. The training is accessible at http://www.dhs.gov/dhs-security-and-training-requirements-contractors.

Training shall be completed within thirty (30) days of contract award and be completed on an annual basis thereafter not later than October 31st of each year. Any new Contractor employees assigned to the contract shall also complete the training before accessing PII and/or SPII. The Contractor shall maintain copies of training certificates for all Contractor and subcontractor employees as a record of compliance. Initial training certificates for each Contractor and subcontractor employee shall be provided to the COR not later than thirty (30) days after contract award. Subsequent training certificates to satisfy the annual training requirement shall be submitted to the COR via e-mail notification not later than October 31st of each year. The e-mail notification shall state the required training has been completed for all Contractor and subcontractor employees.

H.5. SAFEGUARDING OF SENSITIVE INFORMATION (MAR 2015)

(a) Applicability. This clause applies to the Contractor, its subcontractors, and Contractor employees (hereafter referred to collectively as “Contractor”). The Contractor shall insert the substance of this clause in all subcontracts.

(b) Definitions. As used in this clause—

“Personally Identifiable Information (PII)” means information that can be used to distinguish or trace an individual’s identity, such as name, social security number, or biometric records, either alone, or when combined with other personal or identifying information that is linked or linkable to a specific individual, such as date and place of birth, or mother’s maiden name. The definition of PII is not anchored to any single category of information or technology. Rather, it requires a case-by-case assessment of the specific risk that an individual can be identified. In performing this assessment, it is important to recognize that non-personally identifiable information can become personally identifiable information whenever additional information is made publicly available—in
any medium and from any source—that, combined with other available information, could be used
to identify an individual.

PII is a subset of sensitive information. Examples of PII include, but are not limited to: name, date
of birth, mailing address, telephone number, Social Security number (SSN), email address, zip
code, account numbers, certificate/license numbers, vehicle identifiers including license plates,
uniform resource locators (URLs), static Internet protocol addresses, biometric identifiers such as
fingerprint, voiceprint, iris scan, photographic facial images, or any other unique identifying
number or characteristic, and any information where it is reasonably foreseeable that the
information will be linked with other information to identify the individual.

“Sensitive Information” is defined in HSAR clause 3052.204-71, Contractor Employee Access, as
any information, which if lost, misused, disclosed, or, without authorization is accessed, or
modified, could adversely affect the national or homeland security interest, the conduct of Federal
programs, or the privacy which to which individuals are entitled under section 552a of Title 5, United
States Code (the Privacy Act), but which has not been specifically authorized under criteria
established by an Executive Order or an Act of Congress to be kept secret in the interest of
national defense, homeland security or foreign policy. This definition includes the following
categories of information:

(1) Protected Critical Infrastructure Information (PCII) as set out in the Critical Infrastructure
Information Act of 2002 (Title II, Subtitle B, of the Homeland Security Act, Public Law 107- 296,
196 Stat. 2135), as amended, the implementing regulations thereto (Title 6, Code of Federal
Regulations, Part 29) as amended, the applicable PCII Procedures Manual, as amended, and any
supplementary guidance officially communicated by an authorized official of the Department of
Homeland Security (including the PCII Program Manager or his/her designee);

(2) Sensitive Security Information (SSI), as defined in Title 49, Code of Federal Regulations, Part
1520, as amended, “Protection of Sensitive Security Information,” as amended, and any
supplementary guidance officially communicated by an authorized official of
the Department of Homeland Security (including the Assistant Secretary for the Transportation
Security Administration or his/her designee);

(3) Information designated as “For Official Use Only,” which is unclassified information of a
sensitive nature and the unauthorized disclosure of which could adversely impact a person’s
privacy or welfare, the conduct of Federal programs, or other programs or operations essential to
the national or homeland security interest; and

(4) Any information that is designated “sensitive” or subject to other controls, safeguards or
protections in accordance with subsequently adopted homeland security information handling
procedures.

“Sensitive Information Incident” is an incident that includes the known, potential, or suspected
exposure, loss of control, compromise, unauthorized disclosure, unauthorized acquisition, or
unauthorized access or attempted access of any Government system, Contractor system, or
sensitive information.
“Sensitive Personally Identifiable Information (SPII)” is a subset of PII, which if lost, compromised or disclosed without authorization, could result in substantial harm, embarrassment, inconvenience, or unfairness to an individual. Some forms of PII are sensitive as stand-alone elements. Examples of such PII include: Social Security numbers (SSN), driver’s license or state identification number, Alien Registration Numbers (A-number), financial account number, and biometric identifiers such as fingerprint, voiceprint, or iris scan. Additional examples include any groupings of information that contain an individual’s name or other unique identifier plus one or more of the following elements:

1. Truncated SSN (such as last 4 digits)
2. Date of birth (month, day, and year)
3. Citizenship or immigration status
4. Ethnic or religious affiliation
5. Sexual orientation
6. Criminal History
7. Medical Information
8. System authentication information such as mother’s maiden name, account passwords or personal identification numbers (PIN)

Other PII may be “sensitive” depending on its context, such as a list of employees and their performance ratings or an unlisted home address or phone number. In contrast, a business card or public telephone directory of agency employees contains PII but is not sensitive.

(c) Authorities. The Contractor shall follow all current versions of Government policies and guidance accessible at http://www.dhs.gov/dhs-security-and-training-requirements-contractors, or available upon request from the Contracting Officer, including but not limited to:

1. DHS Management Directive 11042.1 Safeguarding Sensitive But Unclassified (for Official Use Only) Information
2. DHS Sensitive Systems Policy Directive 4300A
3. DHS 4300A Sensitive Systems Handbook and Attachments
5. DHS Handbook for Safeguarding Sensitive Personally Identifiable Information
7. DHS Information Security Performance Plan (current fiscal year)
8. DHS Privacy Incident Handling Guidance
11. NIST Special Publication 800-88 Guidelines for Media Sanitization accessible at http://csrc.nist.gov/publications/PubsSPs.html

(d) Handling of Sensitive Information. Contractor compliance with this clause, as well as the policies and procedures described below, is required.
(1) Department of Homeland Security (DHS) policies and procedures on Contractor personnel security requirements are set forth in various Management Directives (MDs), Directives, and Instructions. MD 11042.1, Safeguarding Sensitive But Unclassified (For Official Use Only) Information describes how Contractors must handle sensitive but unclassified information. DHS uses the term “FOR OFFICIAL USE ONLY” to identify sensitive but unclassified information that is not otherwise categorized by statute or regulation. Examples of sensitive information that are categorized by statute or regulation are PCII, SSI, etc. The DHS Sensitive Systems Policy Directive 4300A and the DHS 4300A Sensitive Systems Handbook provide the policies and procedures on security for Information Technology (IT) resources. The DHS Handbook for Safeguarding Sensitive Personally Identifiable Information provides guidelines to help safeguard SPII in both paper and electronic form. DHS Instruction Handbook 121-01-007 Department of Homeland Security Personnel Suitability and Security Program establishes procedures, program responsibilities, minimum standards, and reporting protocols for the DHS Personnel Suitability and Security Program.

(2) The Contractor shall not use or redistribute any sensitive information processed, stored, and/or transmitted by the Contractor except as specified in the contract.

(3) All Contractor employees with access to sensitive information shall execute DHS Form 11000-6, Department of Homeland Security Non-Disclosure Agreement (NDA), as a condition of access to such information. The Contractor shall maintain signed copies of the NDA for all employees as a record of compliance. The Contractor shall provide copies of the signed NDA to the Contracting Officer’s Representative (COR) no later than two (2) days after execution of the form.

(4) The Contractor’s invoicing, billing, and other recordkeeping systems maintained to support financial or other administrative functions shall not maintain SPII. It is acceptable to maintain in these systems the names, titles and contact information for the COR or other Government personnel associated with the administration of the contract, as needed.

(e) Authority to Operate. The Contractor shall not input, store, process, output, and/or transmit sensitive information within a Contractor IT system without an Authority to Operate (ATO) signed by the Headquarters or Component CIO, or designee, in consultation with the Headquarters or Component Privacy Officer. Unless otherwise specified in the ATO letter, the ATO is valid for three (3) years. The Contractor shall adhere to current Government policies, procedures, and guidance for the Security Authorization (SA) process as defined below.

documents that may be required include a Plan(s) of Action and Milestones and Interconnection Security Agreement(s). During the development of SA documentation, the Contractor shall submit a signed SA package, validated by an independent third party, to the COR for acceptance by the Headquarters or Component CIO, or designee, at least thirty (30) days prior to the date of operation of the IT system. The Government is the final authority on the compliance of the SA package and may limit the number of resubmissions of a modified SA package. Once the ATO has been accepted by the Headquarters or Component CIO, or designee, the Contracting Officer shall incorporate the ATO into the contract as a compliance document. The Government’s acceptance of the ATO does not alleviate the Contractor’s responsibility to ensure the IT system controls are implemented and operating effectively.

(ii) Independent Assessment. Contractors shall have an independent third party validate the security and privacy controls in place for the system(s). The independent third party shall review and analyze the SA package, and report on technical, operational, and management level deficiencies as outlined in NIST Special Publication 800-53 Security and Privacy Controls for Federal Information Systems and Organizations. The Contractor shall address all deficiencies before submitting the SA package to the Government for acceptance.

(iii) Support the completion of the Privacy Threshold Analysis (PTA) as needed. As part of the SA process, the Contractor may be required to support the Government in the completion of the PTA. The requirement to complete a PTA is triggered by the creation, use, modification, upgrade, or disposition of a Contractor IT system that will store, maintain and use PII, and must be renewed at least every three (3) years. Upon review of the PTA, the DHS Privacy Office determines whether a Privacy Impact Assessment (PIA) and/or Privacy Act System of Records Notice (SORN), or modifications thereto, are required. The Contractor shall provide all support necessary to assist the Department in completing the PIA in a timely manner and shall ensure that project management plans and schedules include time for the completion of the PTA, PIA, and SORN (to the extent required) as milestones. Support in this context includes responding timely to requests for information from the Government about the use, access, storage, and maintenance of PII on the Contractor’s system, and providing timely review of relevant compliance documents for factual accuracy. Information on the DHS privacy compliance process, including PTAs, PIAs, and SORNs, is accessible at http://www.dhs.gov/privacy-compliance.

(2) Renewal of ATO. Unless otherwise specified in the ATO letter, the ATO shall be renewed every three (3) years. The Contractor is required to update its SA package as part of the ATO renewal process. The Contractor shall update its SA package by one of the following methods: (1) Updating the SA documentation in the DHS automated information assurance tool for acceptance by the Headquarters or Component CIO, or designee, at least 90 days before the ATO expiration date for review and verification of security controls; or (2) Submitting an updated SA package directly to the COR for approval by the Headquarters or Component CIO, or designee, at least 90 days before the ATO expiration date for review and verification of security controls. The 90-day review process is independent of the system production date and therefore it is important that the Contractor build the review into project schedules. The reviews may include onsite visits that involve physical or logical inspection of the Contractor environment to ensure controls are in place.
(3) Security Review. The Government may elect to conduct random periodic reviews to ensure that the security requirements contained in this contract are being implemented and enforced. The Contractor shall afford DHS, the Office of the Inspector General, and other Government organizations access to the Contractor’s facilities, installations, operations, documentation, databases and personnel used in the performance of this contract. The Contractor shall, through the Contracting Officer and COR, contact the Headquarters or Component CIO, or designee, to coordinate and participate in review and inspection activity by Government organizations external to the DHS. Access shall be provided, to the extent necessary as determined by the Government, for the Government to carry out a program of inspection, investigation, and audit to safeguard against threats and hazards to the integrity, availability and confidentiality of Government data or the function of computer systems used in performance of this contract and to preserve evidence of computer crime.

(4) Continuous Monitoring. All Contractor-operated systems that input, store, process, output, and/or transmit sensitive information shall meet or exceed the continuous monitoring requirements identified in the Fiscal Year 2014 DHS Information Security Performance Plan, or successor publication. The plan is updated on an annual basis. The Contractor shall also store monthly continuous monitoring data at its location for a period not less than one year from the date the data is created. The data shall be encrypted in accordance with FIPS 140-2 Security Requirements for Cryptographic Modules and shall not be stored on systems that are shared with other commercial or Government entities. The Government may elect to perform continuous monitoring and IT security scanning of Contractor systems from Government tools and infrastructure.

(5) Revocation of ATO. In the event of a sensitive information incident, the Government may suspend or revoke an existing ATO (either in part or in whole). If an ATO is suspended or revoked in accordance with this provision, the Contracting Officer may direct the Contractor to take additional security measures to secure sensitive information. These measures may include restricting access to sensitive information on the Contractor IT system under this contract. Restricting access may include disconnecting the system processing, storing, or transmitting the sensitive information from the Internet or other networks or applying additional security controls.

(6) Federal Reporting Requirements. Contractors operating information systems on behalf of the Government or operating systems containing sensitive information shall comply with Federal reporting requirements. Annual and quarterly data collection will be coordinated by the Government. Contractors shall provide the COR with requested information within three (3) business days of receipt of the request. Reporting requirements are determined by the Government and are defined in the Fiscal Year 2014 DHS Information Security Performance Plan, or successor publication. The Contractor shall provide the Government with all information to fully satisfy Federal reporting requirements for Contractor systems.

(f) Sensitive Information Incident Reporting Requirements.

(1) All known or suspected sensitive information incidents shall be reported to the Headquarters or Component Security Operations Center (SOC) within one hour of discovery in accordance with 4300A Sensitive Systems Handbook Incident Response and Reporting requirements. When
notifying the Headquarters or Component SOC, the Contractor shall also notify the Contracting Officer, COR, Headquarters or Component Privacy Officer, and US-CERT using the contact information identified in the contract. If the incident is reported by phone or the Contracting Officer’s email address is not immediately available, the Contractor shall contact the Contracting Officer immediately after reporting the incident to the Headquarters or Component SOC. The Contractor shall not include any sensitive information in the subject or body of any e-mail. To transmit sensitive information, the Contractor shall use FIPS 140-2 Security Requirements for Cryptographic Modules compliant encryption methods to protect sensitive information in attachments to email. Passwords shall not be communicated in the same email as the attachment. A sensitive information incident shall not, by itself, be interpreted as evidence that the Contractor has failed to provide adequate information security safeguards for sensitive information, or has otherwise failed to meet the requirements of the contract.

(2) If a sensitive information incident involves PII or SPII, in addition to the reporting requirements in 4300A Sensitive Systems Handbook Incident Response and Reporting, Contractors shall also provide as many of the following data elements that are available at the time the incident is reported, with any remaining data elements provided within 24 hours of submission of the initial incident report:

(i) Data Universal Numbering System (DUNS);
(ii) Contract numbers affected unless all contracts by the company are affected;
(iii) Facility CAGE code if the location of the event is different than the prime contractor location;
(iv) Point of contact (POC) if different than the POC recorded in the System for Award Management (address, position, telephone, email);
(v) Contracting Officer POC (address, telephone, email);
(vi) Contract clearance level;
(vii) Name of subcontractor and CAGE code if this was an incident on a subcontractor network;
(viii) Government programs, platforms or systems involved;
(ix) Location(s) of incident;
(x) Date and time the incident was discovered;
(xi) Server names where sensitive information resided at the time of the incident, both at the Contractor and subcontractor level;
(xii) Description of the Government PII and/or SPII contained within the system;
(xiii) Number of people potentially affected and the estimate or actual number of records exposed and/or contained within the system; and
(xiv) Any additional information relevant to the incident.

(g) Sensitive Information Incident Response Requirements.

(1) All determinations related to sensitive information incidents, including response activities, notifications to affected individuals and/or Federal agencies, and related services (e.g., credit monitoring) will be made in writing by the Contracting Officer in consultation with the Headquarters or Component CIO and Headquarters or Component Privacy Officer.

(2) The Contractor shall provide full access and cooperation for all activities determined by the
Government to be required to ensure an effective incident response, including providing all requested images, log files, and event information to facilitate rapid resolution of sensitive information incidents.

(3) Incident response activities determined to be required by the Government may include, but are not limited to, the following:

(i) Inspections,
(ii) Investigations,
(iii) Forensic reviews, and
(iv) Data analyses and processing.

(4) The Government, at its sole discretion, may obtain the assistance from other Federal agencies and/or third-party firms to aid in incident response activities.

(h) Additional PII and/or SPII Notification Requirements.

(1) The Contractor shall have in place procedures and the capability to notify any individual whose PII resided in the Contractor IT system at the time of the sensitive information incident not later than 5 business days after being directed to notify individuals, unless otherwise approved by the Contracting Officer. The method and content of any notification by the Contractor shall be coordinated with, and subject to prior written approval by the Contracting Officer, in consultation with the Headquarters or Component Privacy Officer, utilizing the DHS Privacy Incident Handling Guidance. The Contractor shall not proceed with notification unless the Contracting Officer, in consultation with the Headquarters or Component Privacy Officer, has determined in writing that notification is appropriate.

(2) Subject to Government analysis of the incident and the terms of its instructions to the Contractor regarding any resulting notification, the notification method may consist of letters to affected individuals sent by first class mail, electronic means, or general public notice, as approved by the Government. Notification may require the Contractor’s use of address verification and/or address location services. At a minimum, the notification shall include:

(i) A brief description of the incident;
(ii) A description of the types of PII and SPII involved;
(iii) A statement as to whether the PII or SPII was encrypted or protected by other means;
(iv) Steps individuals may take to protect themselves;
(v) What the Contractor and/or the Government are doing to investigate the incident, to mitigate the incident, and to protect against any future incidents; and
(vi) Information identifying who individuals may contact for additional information.

(i) Credit Monitoring Requirements. In the event that a sensitive information incident involves PII or SPII, the Contractor may be required to, as directed by the Contracting Officer:

(1) Provide notification to affected individuals as described above; and/or

(2) Provide credit monitoring services to individuals whose data was under the control of the
Contractor or resided in the Contractor IT system at the time of the sensitive information incident for a period beginning the date of the incident and extending not less than 18 months from the date the individual is notified. Credit monitoring services shall be provided from a company with which the Contractor has no affiliation. At a minimum, credit monitoring services shall include:

(i) Triple credit bureau monitoring;
(ii) Daily customer service;
(iii) Alerts provided to the individual for changes and fraud; and
(iv) Assistance to the individual with enrollment in the services and the use of fraud alerts; and/or

(3) Establish a dedicated call center. Call center services shall include:

(i) A dedicated telephone number to contact customer service within a fixed period;
(ii) Information necessary for registrants/enrollees to access credit reports and credit scores;
(iii) Weekly reports on call center volume, issue escalation (i.e., those calls that cannot be handled by call center staff and must be resolved by call center management or DHS, as appropriate), and other key metrics;
(iv) Escalation of calls that cannot be handled by call center staff to call center management or DHS, as appropriate;
(v) Customized FAQs, approved in writing by the Contracting Officer in coordination with the Headquarters or Component Chief Privacy Officer; and
(vi) Information for registrants to contact customer service representatives and fraud resolution representatives for credit monitoring assistance.

(j) Certification of Sanitization of Government and Government-Activity-Related Files and Information. As part of contract closeout, the Contractor shall submit the certification to the COR and the Contracting Officer following the template provided in NIST Special Publication 800-88 Guidelines for Media Sanitization.
