

## Miller Fellow: Gergo Szimler

Faculty Sponsor: Professor Katerina Linos

**Project: Comparative Antitrust Project**

**Gergo Szimler** is an LLM student at Berkeley Law. His academic interests lie in international business transactions, international antitrust law, and broader policy issues underlying current global business issues.

Gergo works for an international law firm in Budapest focusing on international business restructuring, business law and M&A work. He believes that a deeper understanding of the global dilemmas faced by multinational businesses will provide useful insights into solving their local challenges too.

As a Miller Fellow, he will support Professor Katerina Linos' work with the comparative antitrust project, for example in the context of policy diffusion.
