

Certificate of Specialization in Energy and Clean Technology Law (JD) REQUIREMENTS FOR THE 2023-2024 ACADEMIC YEAR

Berkeley Law JD candidates have the option of earning a Certificate of Specialization in Energy and Clean Technology Law. The Certificate recognizes that the student has gained a broad understanding of key issues and concepts in these fields.

REQUIREMENTS

Applicants must complete a substantial paper focusing on some aspect of energy and clean technology as well as the course requirements listed on the next page.

ABOUT THE RESEARCH PAPER

The paper requirement can be fulfilled by completing the Environmental Law Writing seminar, the Environmental Law Clinic, an independent study (Law 299) or another seminar for which the student completes a major research paper that could satisfy Option 2 of the Writing Requirement. The paper must be at least 30 pages in length and must be revised at least once in response to comments from the supervising professor.** In general, this paper should be supervised by a Berkeley Law faculty member with expertise in energy, environmental, land use, or natural resource law.

***Students enrolled in the Environmental Law Clinic may use a series of papers that total at least 30 pages to satisfy this requirement, so long as the papers could satisfy Option 2 of the writing requirement.*

QUESTIONS AND WAIVERS

Questions about exceptions and waivers should be directed to Prof. Sharon Jacobs at sharon.jacobs@berkeley.edu with copy to CLEE at clee@law.berkeley.edu.

For all other questions and help contact clee@law.berkeley.edu.

HOW TO APPLY

Application forms are available via law.berkeley.edu/research/clee/student-resources/certificates.

Applications are due by Friday, March 15, 2024.

TIER 1—Foundational Course (required):

- 270.6 Energy Law & Policy (3 units)
